THOMSON AND TAYLOR'S

CELEBRATED MANGE REMEDY,

G.'S LINIMENT,

An Infallible Remedy for the speedy cure of Mange, Malabar Itch, and other Skin Diseases in Horses, Dogs, and Cattle.

IN MALABAR ITCH many remedies have been tried without relief, the disease never being thoroughly eradicated. In the cases in which G.'s LINIMENT has been tried, ONE OR TWO APPLICATIONS have proved at once a Relief, and with careful attention to the directions, will be found a thorough Specific.

Per Pint Bottle, Re. 1-8.

The following testimonial from an eminent physician we have been allowed to publish:—

"I used G.'s Liniment for Malabar Itch in three cases with great success.

(Signed) W. A. S., M.D."

An unprecedented number of other Testimonials has been received for years past by the Proprietor, certifying to its efficacy and universal success in the cure of Mange and Scabies generally. The undernoted are a few extracts from some of the letters:—

"Done my Dog a great deal of service in one of the worst cases of Red Mange I have seen.
(Sd.) H. F. W."

"I cannot too strongly recommend this Ointment.

"Both Greyhounds are now quite well; I can strongly recommend this Ointment.
(Sd.) W. H. DeM."

"After three or four days the Skin becomes clean and smooth.

"Your G's. Liniment and Condition Powder are worth treble the money. I wouldn't be without them on any account."

THOMSON AND TAYLOR'S

CONDITION POWDER.

When a horse is out of condition it is generally indicated by a dulness of the coat, and a want of that spirit and liveliness he usually exhibits.

These powders promote the action of the skin, increase the appetite, and assist digestion.

Price Rs. 2 per bottle.

"Your "Condition Powder" acts like a charm; a few doses have quite restored my horse.
(Sd.) D. H. W."

NOTICE.

THE DEWAN of TRAVANCORE WILL SELL BY PUBLIC AUCTION the CONTRACT for the SUPPLY of 4,65,000 Indian Maunds of BOMBAY SALT required for the use of the Travancore Government.

2. The sale will take place at the Huzur Cutcherry at noon on Wednesday, 14th October, 1891 (29th Kunni 1067), when intending bidders should be present either in person or by duly authorized agents.

3. Each bidder will be required to make a deposit of Rs. 500 before the commencement of the sale, and none but those who have made this deposit will be permitted to compete. This deposit may be paid in advance in the Commercial Treasury and the Commercial Agent's receipt produced, or the amount may be paid in the Huzur Cutcherry itself.

4. In the case of unsuccessful bidders, the deposits will be returned immediately after the sale is over. In the case of successful parties, they will be retained as security against defaults until the required security is furnished and the agreement entered into within a week before the Commercial Agent on an eight-anna stamp paper provided by them.

5. In addition to the forfeiture of deposit parties who fail to execute the agreement will be held [illegible] for losses the Government may sustain in conseque[illegible] liable [illegible] default and shall not be entitled to a[illegible]ce of their accrue from the re-sale of [illegible] profits that may [illegible]

6. Th[illegible] the contract. [illegible] contract will be put up in such convenient lots, as may be desirable at the time of the sale.

7. The salt shall be delivered into the following Bankshalls or Godowns at the cost of the contractor :—

	Maunds.
Alleppey	2,50,000
Quilon	1,30,000
Munambum	55,000
Trevandrum	30,000

8. The delivery should commence immediately after contract and be completed before the end of April 1892.

9. The salt should be brought and landed in bags from the Bombay works. The empty bags will be returned to the owners after the salt has been stored.

10. The salt will be received by weight at Alleppey by passing the bags in trucks over the weigh-bridge and counting 82½ English lbs. to one Indian Maund.

At Munambum, Quilon and Trevandrum weighing machines will be used.

11. The Government of Bombay will not require prepayment of the salt duty or any other payment except 3 pies per Maund. The following rules will regulate the shipment and delivery of salt and must be strictly complied with.

(a) On entering into contract, the contractors will be furnished with certificates under the seal and the signature of the Commercial Agent specying the quantities of salt they are authorized to procure for the use of this Government.

(b) Duplicates of these certificates will be forwarded by the Commercial Agent to the Bombay salt authorities.

(c) On production of the original certificates, the Bombay Government will permit the contracter to export free of duty, but on payment of 3 pies per maund, as much salt as he is authorized to procure. The quantity shipped in each vessel will be entered in the certificate in the possession of the contractor and in the duplicate and will also be communicated to the Commercial Agent.

(d) It shall be the duty of the Commercial Agent to ascertain whether the whole quantity shipped has been landed. In case of any deficiency, the full export duty prevailing at the time of import on the quantity found deficient shall be levied. No allowance for wastage will be made.

(e) After each shipment has been received, the Commercial Agent will grant a certificate stating whether the whole quantity shipped has been received or not, and in the latter case will certify that the full duty, that may be in force at the time of import, has been received from the shipper upon the deficient quantity.

(f) This certificate must be produced before the Bombay authorities within 2 months at the latest from the date of shipment.

12. Satisfactory security either in Government paper or cash to the extent of Rs. 10 per hundred maunds will have to be furnished before the contract is entered into, to enable the Commercial Agent to recover the duty on deficiencies and for the general fufilment of the contract.

13. The contract price will be paid as each shipment is delivered.

14. Approved samples of Bombay salt will be exhibited at the time of sale and only such salt must be supplied. All salt of inferior quality will be rejected and any salt so rejected shall be paid for at the selling price that may prevail at the time of import and taken back by the contractor.

15. The Government reserves to itself the right of rejecting all or any of the bids without assigning a reason.

16. Any further information can be obtained on application to the undersigned.

SHERIFF'S PROCLAMATION.

IN THE HIGH COURT OF JUDICATURE AT BOMBAY.
ORDINARY ORIGINAL CIVIL JURISDICTION.
SUIT No. 673 OF 1889.

ABDOOL RAHIMON BEG MAHOMED HAJEE ABD RAHIMON of Bombay Memon Mahomedan Merchant Inhabitant residing at Colsa Molla outside the Fort of Bombay ......Plaintiff.

vs.

CHIMNAJEE RAGHOWJEE of Bombay Hindoo Contractor Inhabitant residing at Doongree Jail Road outside the Fort of Bombay......Defendant.

WHEREAS by a Decree made in the above suit on the 9th day of June 1890 it was ordered interalia that the Defendant should pay to the plaintiff the sum of Rs. 1,310 for rent up to the 30th June 1890 with interest thereon at 9 per cent per annum from the respective dates when the rent became due till payment and Rs. 858-1 for taxed costs including costs for an injunction, and that the plaintiff should receive from the hands of the Receiver the net balance of the rent recovered by him in this Suit and when received should give Defendant credit therefore against the aforesaid sum of Rupees 1310 and that the Defendant should pay the balance of the said sum of Rupees 1310 and also the interest thereon and the costs of this suit on or before the 8th August 1890 and that until such payment the plaintiff should have a charge for such payment on the defendant's property situate in a village at Ansari in Khera Zilla Poona, and that in case of default on the part of the defendant in payment of the balance of the said rent interest and costs within the time aforesaid the term mentioned in the Lease annexed to the Plaint should be considered at an end and that the plaintiff in such latter case should be entitled to recover the said balance of rent and interest and costs either from the Defendant or from the said Khair property and that the defendant should pay rent regularly as provided in the said Lease from the 1st July 1890 to the Plaintiff, his heirs, executors, administrators and assigns and that he should complete the unfinished building within five months from the date of the Degree.

And whereas by warrant of sale, dated the 6th day of May 1891, the Sheriff of Bombay was directed to sell the right, title and interest of Defendant abovenamed in the lands and premises of the said warrant mentioned, that is to say :—

FIRSTLY.—All that piece or parcel of Fazandaree land or ground with the messuage tenement or dwelling house erected built and now standing thereon situate lying and being outside the fort of Bombay at Nowrojee Hill first Row in the sub-district of Mandvie, assessed under No. 66 and containing by admeasurement 50 feet in length and 33 feet in breath or thereabouts, and bounded as follows that is to say on or towards the East by Nowrojee Hill first Row, on or towards the West by the property of Jeewan Padman Coley, on the North by the property of Ramjee Jaitha, on the South by the property of Chimnajee Raghowjee and which said premises was formerly in the occupation of Jeewan Pudman and Cristnajee Nimbajee and others and now in the occupation of the tenants of the said Chimnajee Raghowjee. Secondly.—All that piece or parcel of Fazendaree land or ground, together with the dwelling house thereon, erected and built and now standing thereon situate on the west side of the Nowrojee Hill 2nd Row, in the Registration sub-district of Mandvi, and assessed by the Collector of Assessment under No. 56, and registered in the Books of the Fazendar under No. 144 and admeasuring 22 feet in breadth and 60 feet in length and bounded as follows : On or towards the East by Nowrojee Hill 2nd Row on or towards the west partly by a passage and partly by the house of Bhiwa Janoojee Coley, on or towards the North by vacant ground and house of Purshotum bin Jootcha, and on or towards the South by the house of Valoo Peelajee Coley, and all which said premises were formerly in the occupation of Ramjee Subdar Raghoo Hurry and are now in the occupation of the tenants of the said Chimnajee Raghowjee.

Now it is hereby proclaimed and notified that on the dates and at the hours and places under mentioned the Sheriff of Bombay will under and by virtue of the said Warrant of sale put up for sale by public auction to the highest bidder and without reserve the right, title and interest of Shunker Chimnajee, Vishnoo Chimnajee and Luxmon Chimnajee, [illegible] Condibai, widow of the said Defendant, in the said lands and premises or in so much thereof as may be necessary for the satisfaction of the said Decree and costs.

The properties firstly and secondly above described will be sold on the premises at 3-30 and 4 o'clock P.M., respectively, on Friday, the 9th day of October 1891.

The following is claim to which the said lands and premises are supposed to be liable :—

Kackhusroo Sorabjee Nariman claims the sum of Rupees 10,023 or thereabouts for principal and interest and compound interest due to him both as absolute owner and as administrator of the Estate of Sorabjee Rustomjee Nariman under a Deed of mortgage, dated the 20th April 1885, executed by the abovenamed Defendant, Chimnajee Raghowjee, in favour of Sorabjee Rustomjee Nariman, and further interest up to the date of payment.

Intimation is given that the Court does not warrant the correctness of the above description of the premises nor the title of the said Shunker Chimnajee, Vishno, Chimnajee, Luxumon Chimnajee, and Condibai to the same or to any interest therein.

Should the said Shunker Chimnajee, Vishnoo Chimnajee, Luxumon Chimnajee, and Condibai have no saleable interest whatever in any lot to be sold in accordance with this Proclamation any sum paid by the purchaser by way of full or part payment for the same will be repayable to the purchaser.

The abovenamed plaintiff has obtained permission to bid at the sale.

Of the price of each lot one fourth shall be paid forthwith when the lot is knocked down to a purchaser, the remainder of the purchase money must be paid in each case by the purchaser to the Sheriff on or before the fifteenth day after the sale.

The sale will not become absolute until confirmed by the Court.

In default of payment in whole or in part, as above prescribed, any sum paid as deposit will be forfeited to the Government and the lot will be sold free from any interest therein or in the proceeds of the prior purchaser.

For further information and conditions of Sale application should be made at the office of the Sheriff.—Dated this 5th day of September 1891.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws, which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavoured beverage, which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us, ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article of the *Civil Service Gazette.*

JEWELLERS, WATCHMAKERS, SILVERSMITHS,
DIAMOND MERCHANTS,
73, ESPLANADE ROAD, BOMBAY.

IN order to still further add to the convenience of our Friends and Customers in the Bombay Presidency, we have recently enlarged our Manufactory at our Branch Establishment in Bombay. This will accommodate a greater number of Workmen than we have hitherto been able to find room for. Our principal Workshops are in Calcutta, where we employ a large number of skilled Workmen, both European and Native, and our Bombay Management has been in the past mainly dependent upon them to supply work made to express order.

We hope now, however, to manufacture whatever is required of our Bombay Branch in the CITY of BOMBAY itself. At the same time, our more extensive plant in Calcutta will always be available. By these arrangements a great saving in time will be effected, which in case of Jewellery repairs is often of the first importance.

SPECIAL CARE and ATTENTION is given to our WATCH REPAIRING DEPARTMENT, and no Watches or Clocks are allowed to leave our Workshops until they have been carefully examined and tested by the head of the Department.

REPORTED THEFT.—Major C. Ryan, R. A., Colaba, reports to the police the theft of a gold watch and chain valued at £40 from his bungalow, during his absence at mess on Friday evening.

B. B. & C. I. RAILWAY.—The goods traffic on the B. B. & C. I. Railway for the week ending 15th August 1891, shows an increase on the corresponding week of 1890 of 103,628 maunds, and Rs. 15,631 in the earnings.

VEGETARIAN SOCIETY FOR BOMBAY.—It having been decided to establish a Vegetarian Society in Bombay, a meeting of those interested in the food reform question was held in the rooms at No. 16, Church Gate Street, on Saturday, when the rules of the Society were passed and officers were appointed.

THE AUTHORIZED LIST OF BUGGY FARES.—The police have published the authorised list of sigrams, buggies, and victorias, fares containing the list of all public places, showing the nearest conveyance stations of these places, and also the subsidiary rules relating to public conveyance on a large card board. These fares are printed in this form to meet the long-felt want of hotels and public offices. Many of them have already been sold at eight annas per copy.

THEFT OF A PURSE.—At the Esplanade Police Courts, on Saturday, before Mr. J. Sanders Slater, Acting Chief Presidency Magistrate, Inspector Butterfield of the B. Division, brought up Cassum Nubbee, on a charge of theft of a purse and money. The evidence of Rama Jewaji, the complainant, disclosed that he was robbed of his purse by the prisoner whilst he was making some purchases at a shop in Coolywada. Cassum, against whom two previous convictions were proved, denied the charge and stated that he was arrested for handing over the purse to the complainant on noticing it was hanging out of his pocket. The Magistrate convicted and sentenced him to undergo hard labour for three months.

GRANT COLLEGE MEDICAL SOCIETY.—The regular monthly meeting of the Grant College Medical Society will be held in the College Library to-morrow at 4-30 p.m. Business :—(1) The minutes of the last Meeting to be read and confirmed. (2) Election of Assistant Surgeon S. F. Ghandhi and Dr. Ardeshir Dadabhai Nowroji. (3) Notes on the following cases (reported by the Ward Superintendent) by Dr. J. Arnott :—(*a*) Fever (Puerperal state) and (*b*) Pericarditis with double Pneumonia. (4) Notes of a case of an unusually large abcess of the Liver—by Dr. L. B. Dhargalkar. (5) Notes on a case of uterine polypus—Operation and Recovery—by the President Dr. R. N. Khory. (6) To transact such other business as may be brought before the Society by the Secretary.

CHEAP PROVISION AGAINST THE RAINS.—Before Mr. J. Sanders Slater, Officiating Chief Presidency Magistrate, on Saturday, at the Esplanade Police Courts, Inspector Nolan, C. Division, charged Gunput Luximon, a Mahratta youth, with committing the theft of an umbrella, valued at Re. 1-6, the property of Thummu Wuljee. The complainant deposed to being a stranger in Bombay, having arrived on Friday evening from a taluka near Callian. His object in visiting this city was to have some gold rings tested, and whilst he was standing at a shop at Mombadevie, Tank Road, awaiting the opinion of a native expert, his umbrella disappeared. He conveyed the intelligence to the Police, with the result that the accused was arrested on suspicion whilst walking along the Pydhownie Road with the umbrella. The Magistrate convicted the youthful delinquent to receive six stripes.

SEQUEL TO THE PAREL CHEATING CASE.—At the Esplanade Police Courts, on Saturday, the case in which Juggonath Chhota ram, a munim in the firm of Phoolch and Gopalchand, charged Chintaman Khesshow and Bhayirath Manajee, the first with theft as a servant and criminal breach of trust, and misappropriation of Rs. 15,975, and the second with aiding and abetting the offence and receiving the stolen property, again came on for hearing before Mr. Sanders Slaters, Acting Chief Presidency Magistrate. Mr. Russel, barrister-at-law, instructed by Mr. Pestanjee Cawasjee of the firm of Messrs. Pestanjee, Rustim and Kolab, appeared for the prosecution. Mr. Kursondass Chhabildass, barrister-at-law, defended the accused. The facts of the case have already appeared in these columns. His Worship after hearing further corroborative evidence, framed charges against the accused, who reserved their defence, and committed them to take their trial at the ensuing Criminal Sessions, which begin on the 10th instant.

DACOITY AND MURDER AT POONA.—The eight men, Bhima Raghoo, Dada Raghoo, Rangoo Raghoo, Ramooshies, and Chima Navjee, Devjee Kharma, Pandoo Bajee, Govinda Chima and Rama Devjee, Shakurs, belonging respectively to the villages of Paugri and Kadoos, charged with dacoity and murder, were arraigned before Dr. A. D. Pollen, Sessions Judge, on Friday, at Poona. The circumstances of the case have already been published. The evidence proved conclusively that the prisoners were the men who had committed the robbery and murder. Dr. Pollen in sentencing the prisoners, remarked that there were no means by which they could ascertain which particular man dealt the fatal blow to the deceased, Ruttoo Dhangar, and on those grounds he refrained from passing on them the extreme penalty of the law. He, therefore, condemned the whole gang to transportation for life. On hearing the sentence, the whole of the prisoners became extremely excited and violent and attempted to break away from the sepoys in charge of them and make for the bench. After a desperate struggle lasting for several minutes, the prisoners were overpowered and dragged into the Court yards and bound hand and foot. The men were then conveyed to Yarrowda jail, under a strong escort of police armed with loaded rifles.

WIDOW-MARRIAGE.—A widow remarriage was celebrated last evening at the Widow-marriage hall of Seth Madhavdas Raghunathdas in Girgaum at 4 o'clock. Friends and sympathisers of the cause were invited to witness the ceremony. Amongst those present were Dr. Atmaram Pandurung, Principal V. A. Modak, Shet Lukhmidas Khimjee, Messrs. Gokuldas Kahandas Parekh, Shamrao Maneckjee Rele, Narayan Meghajee Lokhande, Shridhar Ramkrishna Bhandarker, Shet Lukhmidas Bhimjee, Dr. Maganlal Umiyashankar Bhut, Mr. B. H. Bhagwat, Shet Damoderdas Govardhandas, Pandit Krishnaram Ichharam, Shet Sevaklal Kersandas, Pranlal Kahandas Joshi Para, Shet Varajray Santookram Desai, Mr. A. B. Dalwe, and many others. The bride Bai Manchabai and the bridegroom Dave Laloobhai Bapoojee both belong to the Baj Khedaval Brahmin caste and are residents of the village Mawoha in the Kheda District. They are aged 18 and 31 respectively. The bride was first married at the tender age of 7 and had the misfortune of being widowed and disfigured at the age of 10. But for the movement of widow-marriage, the fate of such unfortunate widows every one knows what it is. The ceremony was conducted by Hindu priests according to the orthodox ritual.

MUTILATING A WIFE'S FACE.—It will no doubt be recollected some time ago, that a Mahomedan named Cassum Hassum, committed a most brutal attack upon his wife with a knife from motives of jealousy, intending to inflict permanent disfiguration by the cutting of her nose. To accomplish his purpose he closed the doors of the house and after prevailing upon his wife Awabai to submit or suffer the consequences, he produced a sharp knife, and endeavoured to cut off the woman's nose, while she was lying prostrate on the floor. Awabai to her horror was convinced of her cruel husband's intention and resisted. A struggle ensued, and the unfortunate victim screamed for assistance. But before any neighbours could interpose, the woman's face was mutilated in a most shocking manner. The medical evidence of Dr. Gallagher of the J. J. Hospital at the Esplanade Police Courts, on Saturday, before Mr. J. Sanders Slater, showed that the prisoner had inflicted no less than twelve cuts and gashes on his wife's face which, in the opinion of the witness, would cause permanent disfiguration. The prisoner through the resistance offered by his wife, did not quite effect his object. But in the attempt the left side of the woman's nose and (the centre part) were cut through and a portion removed, together with a part of the right eyelid. There were several insised wounds on the cheeks, and Dr. Gallagher considered they were all inflicted by the knife. The accused was placed in the dock, on Saturday, at the Esplanade Police Courts, by Inspector Hack, and charged with voluntarily causing grievous hurt to his wife on July 15th. He feigned not to understand the charge against him, and did not think it probable that a man would have acted as he had done towards his wife. In answer to the Court, he said, he would reserve his defence till his trial at the High Court. The Magistrate then formally committed him to take his trial at the approaching criminal sessions.

THE WEATHER.

OBSERVATIONS TAKEN AT 8 A.M. ON SATURDAY, THE 5TH OF SEPTEMBER, 1891.

1. The barometric readings are all corrected to Calcutta standard and reduced to the same temperature (32°) and also to the sea level.

2. The 2nd column under the head "Wind" gives the average motion of the air in miles per hour during the past 24 hours, and is obtained by dividing the total number of miles of wind registered by an anemometer during the previous 24 hours by 24.

3. The temperatures given in the table are of the air in the shade or in a small shed with open sides and a thatched or straw roof. The maximum (max.) and minimum (min.) temperatures are the highest and lowest temperatures during the 24 hours preceding 8 a.m.

4. The humidity is given as a percentage expressing the rates of the actual amount of moisture in the air to the amount required to saturate it.

SUMMARY.

Pressure changes during the past 24 hours have been small everywhere and there has been no alteration in the general distribution. The baric gradients are moderately steep and the depression in the neighbourhood of Jhansi still exists. The barometer reads below the normal average in the Punjab, North-West Provinces, the Indus valley, Rajputana, Central India and at Madras, Negapatam and Khandwa, and above it elsewhere. Winds are cyclonic in parts adjacent to the depression and an abnormal south-easterly wind current is blowing at Ratnagiri. Over the rest of the country, the ordinary monsoon directions prevail as a rule. The force has been fresh to strong at Karachi, Ajmere, Deesa, Neemuch, Secunderabad, and Madras. This morning the wind velocity was 22 miles an hour at Neemuch, 20 at Khandwa, 18 at Secunderabad, 14 at Ajmere and 12 at Karachi. The maximum temperature variations are generally small every where except at Jacobabad, Ajmere and Deesa (9° to 15° above the average), and at Neemuch, Masulipatam, Madras, Trichinopoly and Negapatam (5° to 8° above the average). The highest maximum was 112° at Jacobabad. Nights are very hot in Rajputana and locally at Deesa, Madras and Negapatam, but in almost all other places the minimum temperature is about normal. The lowest temperature recorded last night was 65° (at Bangalore and Belgaum). Humidity changes are generally small and unimportant and skies are cloudy to overcast everywhere except in the Indus Valley, Rajputana, and locally at Neemuch and Calicut. Rain has fallen on the Malabar Coast, in the Bombay Presidency (except at Malegaon, Poona, Surat and Belgaum) and also at Secunderabad, Masulipatam, Amraoti, Allahabad, Nagpur, Raipur, Agra and Delhi. The principal falls received are 1·87" at Amraoti, 1·50" at Nagpur, and about three-fouths of an inch at Ratnagiri and Mangalore. The monsoon gradient on the Malabar Coast is rather weak to-day, but that between Karwar and Bombay is moderately above the average and only light to moderate local showers are likely. Over the rest of the country, except Sind, Rajputana and the greater part of the Madras Presidency, conditions are favourable for local showers only.

[BY TELEGRAPH.]

SIMLA, SEPT. 5.

The barometer has fallen briskly over Burma and Lower Bengal and slowly in other parts of the Bay area and large part of North-Western India. It has risen elsewhere. A large shallow depression, with its centre near Sandheads, overlies the North-West Provinces, Lower Bengal and north of the Bay. Winds blow from normal monsoon directions except on the Konkan Coast, where the southerly force is fresh. The mean temperature is below normal in Burma, North-West and Central Provinces and Bombay ; above in other provinces. Rain has fallen generally, except in Behar, Punjab, Guzerat, Sind, Rajputana and the Carnatic, where none has fallen. Amounts are heavy in the Central Provinces and head of the Bay.

SEPT. 6.

The barometric changes are generally small, except over Ganjam, Orissa, and South-West Bengal, where it is brisk to rapid ; fall is reported small, and cyclonic storm, which lay off Sandheads yesterday, has commenced a westerly advance, and the centre is now between Balasore and Cuttack ; in other respects distribution is little changed. Winds are cyclonic in neighbourhood of storm, elsewhere they blow from normal monsoon directions ; the force is fresh in several Western and Central stations and the mean temperature is below normal. Average in Burma and North-West and Central Provinces, above other provinces. Rain is general in Burma, Lower Bengal, North-West Provinces and Ganjam ; elsewhere little or none fallen. Amounts are heavy in South-West Bengal and North-West Provinces.

COMMERCIAL INTELLIGENCE

SATURDAY EVENING, SEPT. 5.

A DECLINE of ⅛ per cent in Consols at 95 *exdiv.* took place in London yesterday, following the previous advance of ½ per cent. in the market rate of discount on short London Bills; but Indian Sterling Loan was unaltered at 106¾ *exdiv.* The price of Bar Silver receded 1-16d. per oz.; and Rupee Securities were ¼ per cent. lower in Fours and ⅛ in 4½ per Cents, £77⅛ and £76¼, respectively. In New York, the metal was ¼ cent. down at 97¾ cents, with demand Exchange on London unaltered at 4·85 dollars; but the U. S. Treasury made purchases to the extent of 878·000 ounces at 98·20 to 98·25 cents. The buying rate of the Exchange Banks in London on India at 30 days' sight was given by Reuter as 1s. 5 5-16d. doubtless in error for 1s. 5 1-16d. which was Wednesday's quotation. French Rentes in Paris were ¼ per cent. higher, at 96; Exchange on London was unaltered at fcs. 25·29½.

To-day's financial message from London reports a recovery of ⅛ in the price of Consols at 95⅛, and a reduction to the same extent in the market rate of discount on short London Bills at 2¼ per cent. Silver comes ⅛d. per oz. lower, at 44⅞d.; and Rupee Paper has further receded ⅛ per cent in Fours at £77, and ¼ in the other denomination, at £76; but in New York 97¾ cents. has remained the price, with Exchange unaltered. The Banks' buying rate in London on India has been put down to 1s. 4 15-16d. Paris Exchange on London is a shade higher, at fcs. 25·30.

No fresh advices were to hand this morning through Reuter regarding Wheat or Seeds, and those markets may therefore be assumed to have been unchanged yesterday. The total Wheat afloat for the United Kingdom was 1,730,000 quarters, or 30,000 quarters less than was upon the water a week ago. To-day the Wheat market has been quiet, with both No. 1 Soft White and White Delhi on the spot in Liverpool ½d. per cental lower at 8s. 6d. and 8s. 2½d. Ex-Quay; respectively. Linseed shows no change.

The Liverpool Cotton Market closed firm last evening; Surats firmer and Arrivals quiet but steady; the day's sales having been 12,000 bales, inclusive of 2,500 East Indian. A further advance of 1-16d. took place in the price of ready Mid.-Americans at 4 7-16d. per lb; and all grades of Broach and Dhollera all Oomra descriptions, "Good" Hinganghat, and "Good" Westerns were higher to the same extent; while Bengals and Tinnys advanced ⅛d. American Arrivals were 1-16d. higher, in all positions, the extreme quotations having been 4 51-64d. for September deliveries, and 5 1-64 for January-February. The day's Imports were 3,000 bales. Yesterday's sales, however, are reported by to-day's telegram to have been increased by 3,000 bales, making the total 15,000 bales; and the market closed firm again this afternoon, a good business having been done in Surats in a firm market, and at hardening rates the total sales having aggregated 10,000 bales of which 2,000 were East Indian. There has been no further change in spot prices; but American Arrivals come again 1-16d. higher in all positions. An advance of fc. 1¼ has also taken place in good Oomra and Fine Broach at Havre, at fcs. 42, and fcs. 53 respectively.

The Manchester Market was firm yesterday, and the quotations wired by Reuter show an advance of 1d. in 7lb. and 8¼lbs., and of 1½d. in. 45 in. 9lbs. Grey shirtings; and of ¼d. in 39 in. Jacconets, 45 in. Molls, and 3lbs. and 5¼ lbs. Madapollams; 54 in. 10lbs. Grey Shirtings, and 40s. Mule Twist being quoted as before. The Market has been firm again to-day at the advance.

Following the strong upward movement of Cotton in New York, induced by pessimist views concerning the new American crop, there has been much activity and a considerable rise in the value of the staple in Liverpool during the past week. The total sales have been greater by 34,000 bales than during the week ending on the previous Friday at 83,000 bales (including 9,000 Surats) while the amount forwarded to consumers was 12,000 bales greater, at 56,000 bales. The week's imports were 6,000 bales less, at 17,000 bales. The total Stock had decreased by 44,000 bales; but the figures given yesterday still show an excess of 2,25,000 bales and of 390,000 bales, as against those for last year and the year before, respectively. The total Visible Supply had fallen off during the week by 40,000 bales, and of Surats there were 10,000 bales less in sight; the total increase now shown by the subjoined figures being 526,000 bales as against those for last year, and 823·000 bales compared with the year before; a decrease of 178·000 bales, and an increase of 75,000 bales being shown in East Indian Cotton, in the same comparison. An advance of 5-16 in the spot price of American Cotton; of ⅛ to 5-16d. in East Indian, and of 7-32d. in American Arrivals has been established; yesterday's ready quotation for Mid.-Americans having been 15-16d. lower than that ruling at the same time last year, and 1⅝d. below that quoted in 1889.

Ready Mid.-Uplands was again 1-16 cent. higher in New York yesterday at 8 11-16 cents; but December Futures were 2 points lower at 9·10 cents. The Receipts at the U. S. Ports were 11,000 bales; and the total Receipts, for the first few days of the new season, at 33,000 bales, show a decrease of 42,000 bales compared with 1890, and of 19,000 bales as against 1891. To-day there has been a further advance of ⅛ cent. in spot Mid.-Uplands, at 8 13-16 cents; while Futures for December are 19 points higher, at 9-29 cents. The Receipts at the U. S. Ports have been 13,000 bales, going against 16,000 bales last year, and 12,700 bales the year before.

The American crop figures to date give the following comparisons with the two previous seasons:—

	1891.	1890.	1889.
Week's receipts	51,000	89,000	58,000
„ exports to U. Kingdom	15,000	43,000	26,000
„ „ Continent	3,000	...	3,000
Total receipts since 1st Sept. '91	33,000	75,000	52,000
„ exports to U. K. do.	11,000	18,000	14,000
„ „ to Continent do	2,000	...	3,000
„ stock in the Ports	239,000	91,000	76,000

The total visible supply of Cotton for all Europe on 4th instant affords the following comparisons with the two previous years:—

	1891.	1890.	1889.
Total supply of all kinds	1,660,000	1,133,950	837,000
„ „ Surats	321,000	501,900	299,290

For the United Kingdom only the figures are:—

Stock in Liverpool	849,000	623,650	459,190
„ London	20,000	23,000	22,000
American afloat	20,000	35,000	34,000
East Indian „	15,000	25,000	20,000
Total	904,000	706,650	535,190
Price of Mid-Americans	4⅝d.	5 13-16d.	6¾d.
„ Good Dholleras	3⅜d.	4⅜d.	4 13-16d.
Difference	1¼d.	1 7-16d.	1 15-16d.

The tone of our local market for the staple keeps quiet, with prices nominally unchanged; but there is still next to nothing doing, the day's purchases having been confined to 200 bales of Karanja, for export, at Rs. 165; and 100 Akote Ginned, taken for Mill account, at Rs. 164½ per candy.

WHEAT has attracted little attention from shippers, and only a small business has transpired. Dealers have put down prices ½ to one anna per cwt. and the market closed quiet at the following quotations:—

White Pessy 91 per cent.	Rs.	5-8-6	per cwt.
Do. 85 „	„	5-7-6	„
No. 1 Club Delhi	„	5-2-6	„
Red Delhi	„	4-12-6	„
Hard Yellow	„	4-10-6	„
Red Ahmedabad	„	4-12-0	„
Hard Red	„	4-4-0	„

SEEDS have also been quiet in view of a small export demand; but prices are unchanged for all descriptions.

The receipts of Produce into Bombay yesterday were as follows:—

Cotton	467	bales.
Wheat	33,066	cwts.
Linseed	3,248	„
Rapeseed	2,591	„
Poppyseed	878	„
Groundnuts	890	„
Castor seed	944	„

FREIGHTS have become weak; and business has been done for September shipment to Liverpool, at 22s to 22s 6d; and for the same shipment, to Antwerp, at 22s 6d to 23s per ton.

EXCHANGE, following Silver, opened this morning at a decline of 1-32d. on yesterday's closing quotations, and has remained unchanged all day, with very little business doing. Bank telegraphic has been quoted, for January transfer, at 1s. 5¼d.; and Credits, for this month, at 1s. 5⅜ to 13-32d., and for October delivery, at 1s. 5 7-16d.; ready rates being as follows:—

Bank Bills on Demand	1s. 5 5-32d.	per rupee.
Do. Telegraphic	1s. 5⅛d.	„
Do. 3 months' sight	1s. 5¼d.	„
Credits do.	1s. 5⅜d.	„
Francs do.	1·83¼	„

GOVERNMENT PAPER has improved to the extent of 1-16 to ⅛ per cent. in rates for Fours, owing to the presence of buyers in the market, and we now quote 107 15-16 per cent. for cash, 107 ¾ for this month's settlement, and 107 9-16 for the October account, with buyers at the rates at closing. 106, nominal, is still quoted for 4½ per cents,

SHARES.—There has been a further decline in Cotton Mill Scrip to-day, in a number of instances, at our quotations, the feeling still favouring buyers. Otherwise the market is quiet with few changes in rates. We note, however, an advance of Rs. 10 in Alcock, Ashdown and Company, at Rs. 270; of Rs. 25 in Bombay Burma Trading, at Rs. 3,825; and of Rs. 5 in Treacher and Company at Rs. 955. Delhi and Northern Flour are Rs. 10 lower, at Rs. 155.

The Bombay Gazette

MONDAY, SEPTEMBER 7, 1891.

As will be seen from the report of the meeting of the Bombay Natural History Society which we published on Saturday, some very valuable presents intended for the zoological collection in the Victoria Gardens have been declined owing to the want of necessary accommodation. Colonel H. L. Nutt, Political Agent at Sawant Vadi, wrote to Mr. Phipson, offering to present, through the Society, a splendid full-grown young male tiger to the Victoria Gardens. The Municipal Commissioner, who was communicated with, stated that there is no suitable accommodation for the animals in the gardens. Mr. Phipson was obliged to inform Colonel Nutt that his valuable present could not be accepted. A pair of very fine Kattywar lions was recently offered by another member of the Natural History Society, but the offer had to be declined, there being no cages for lions in the Victoria Gardens. The improved cages which have been erected, and conduce so much to the health and the happiness of the animals and the attractiveness of the Gardens, are due, for the most part, to the liberality of three donors, the Bombay Tramway Company, the Maharajah of Bhavnagar, and Sir Dinshaw Maneckjee Petit. Mr. Phipson expressed a hope, in which the general public will join, that the Municipality will now contribute something from its own resources to the construction of cages, so that the zoological collection may be enlarged and rendered worthy of the city. Very rightly the Corporation decided to levy a small fee at the park gates on certain days of the week, to provide funds for the improvement of the collection of animals. That course was adopted in preference to the crude proposal to "abolish" the birds and animals, and with very fair results. A sum of money derived from that source is now available. At its last meeting the Corporation declined to allocate it to the levelling up and improving of the new land added some two years ago to the area of the gardens. The additional land purchased at a considerable outlay is of course useless for the purpose for which it was bought until it is reclaimed; and there is this further disadvantage that, until the levelling up be effected the frontages on the projected Connaught Road, which are to recoup portion of the first cost, cannot be put on the market. Perhaps from the point of view of those who, with Mr. Chamberlain, desire the municipalisation of the land on which streets are built, this delay will have its compensations. It will give time for public opinion on the subject to ripen. The Connaught Road frontages may be eventually retained as public property, instead of being improvidently sold to the highest bidder, who is generally a land jobber, seeking to turn an honest penny by outbidding *bona fide* purchasers. The Port Trust has wisely kept in its own hands the proprietary right to the landed estate vested in that body. When, taught by experience, the Trust modifies certain of the conditions of its leases, the objections sometimes heard to the Trustees holding land as landlords will cease. In any case, the trade of Bombay reaps the full benefit of the unearned increment of the land accruing to the Trust. The Municipality will doubtless one day awake to the fact that solid relief from the heavy and growing burdens now regarded with so much apprehension is to be found only in the municipalisation of the land. The water-supply has been municipalised, as will eventually be the lighting of the city and possibly the tramways; but these are as feathers in the scale in comparison to the revenue which would be derived from the steady application during, say, twenty years, of the principle now recognised in England and in America as that which will enable cities to bear their burdens without overburdening the ratepayers. But this is by the way. Seeing that the gate-money taken at the Victoria Gardens is not to be expended on the reclamation of the new area added to the grounds, it is but reasonable and right that it should be employed to give additional accommodation for the collection of animals to see which the fees were paid, and for the improvement of which they are levied. If any Councillor, trembling for his seat at the approaching municipal general election, desires to do something to make himself popular and retain his seat, he should take an early opportunity to carry out this suggestion by voting for it with both hands.

THE Presidential Municipalities at present seem to be the victims of an administrative influenza which, though not likely to prove fatal, is certainly a severe trial to the nerves, and puts all hope of rest and comfort out of the question. A most portentous bacillus in the guise of a Government order has descended on the Madras Municipality, which promises to consume the funds urgently needed for the actual necessities of the city, and to adjourn indefinitely any prospect of the increase of the conservancy establishment, and the repair of the drains throughout the town, which are in a very bad way, to say nothing of the destruction of all chance of carrying out the new drainage scheme, which has been so long talked of. The order of the Government issued in 1887 at one fell stroke appropriated Rs. 50,000 of the Municipal monies annually to the General Hospital. Remonstrances have been thrown away. In July the President of the Municipality, Colonel Moore, addressed a strong appeal to the Government, setting forth what appeared to be very valid reasons for reconsidering the order. The General Hospital is an institution for the relief of patients from all the districts of the Presidency, and is not a merely local institution. The city of Madras contributes Rs. 74,000 to the Provincial Funds for hospitals, and besides maintains a hospital and two dispensaries in the city at a relatively heavy cost. The Government insists on the payment of an annual contribution of Rs. 50,000 in excess of the amounts already given, the Finance Committee in the gaiety of its heart, having recommended the exaction as a means of recouping to the local Government some part of the money cut out of the Provincial grant by the Supreme Government. Adding insult to injury the local Government bases its refusal to reconsider the Order on the ground that the Municipality expends large sums on useless establishments, and coolly says that so long as that system is persisted in nothing can be done. The *Madras Mail* pronounces this conclusion illogical, not being in any way connected with the premises, and points out that the Auditor General who has reported on the subject states that any modifications he might suggest would probably lead to an increase rather than to a decrease in the number of clerks. The Government goes on to point out the direction in which the revenues of the Municipality are capable of extension and the expenditure on establishments reduced. The taxation registers are in need of revision, which is admitted, but the need has not been supplied owing, according to the *Mail*, to the want of the necessary establishment. While the Government insists on the reduction of establishments the Municipality complains of being short handed, and unable even to keep the registers, which are the real pot boilers, up to date. The Government shows that a number of houses escape taxation, which appears to be admitted, but with a deprecatory reference to the fact that the Government is using the figures of the recent census, and therefore has a somewhat unfair advantage over the Municipality, which goes by its own registers, such as they are. A strong point is made of the fact that while the incidence of taxation in Calcutta is Rs. 7-2-5, and in Bombay Rs. 5-10-4, in Madras it only amounts to Rs. 2-2-8. Government draws the inference that, even making due allowance for the fact that Madras probably is the poorest town of the three, the taxation registers of the Municipality must be very incorrectly prepared. The Government is prepared to do its part in redressing the inequality from which Madras suffers by undertaking to legalize the imposition of a special scavenging cess, ranging from annas two to rupees five on every house holder, in proportion to his pecuniary circumstances, the very poor alone being exempted. The simplification of accounts, which the Madras Government regards as the first step towards the reduction of the establishments, will, if the Municipality shall fail to draw up a comprehensive scheme on the subject within a reasonable time, be effected by the Accountant-General, who will be asked to depute the Inspector of the Local Fund Accounts to make a thorough investigation into the forms at present in use. The *Mail* recommends that this suggestion should be closed with at once, and a specialist appointed to draw up a scheme, the subject being too technical for the Municipality to take in hand. We quite concur with our Madras contemporary that this technical matter should be dealt with on its own merits, and not be mixed up with the question of the contribution of rupees fifty thousand, which, if given back to the City, would restore the equilibrium of the Municipal finances. As the matter is now put, the local Government is inflicting a fine of rupees fifty thousand per annum on the Municipality because the Municipal accounts are not kept as a specialist would prescribe.

THE new Grand Vizier in Turkey, Djevad Pasha, was at one time Minister in Montenegro, and more recently Governor and Commander-in-Chief in Crete, where he has had to tide over a trying time. He is said to be a statesman of progressive tendencies. But that is a matter of small importance if the dismissal of his predecessor really has the significance which the telegrams to-day attribute to it. As to the statesman whom he replaces, Mahomed Kiamil Pasha is a native of Cyprus, where he was born in 1831. He studied in the Military School at Cairo, and is an accomplished linguist, acquainted with Persian, Arabic, Greek, French, and English; in that capacity he was appointed chief interpreter to the ruler of Egypt, Abbas Pasha, who gave the concession for the Suez Canal. He combined the duties of an Interpreter with those of a Political Officer till he received the military rank of Major. He then accompanied the son of Osman Pasha to Constantinople, and entered the service of the Turkish Government. After serving the Sultan in various departments, he became Grand Vizier in 1885. He is much decorated, having received medals from the following Powers:—Germany, Russia, France, Persia, Japan, Roumania, and Montenegro. The Turkish Grand Vizier—the Sadr-Azam—is the head of the temporal, as the Shekh-ul-Islam is head of the spiritual affairs of the Empire, under the Commander of the Faithful, the Rum-i-Sultan. As representative of the Sovereign, and chief of the Government, he, like the Prime Minister in England, presides over the Cabinet of Ministers, known in Turkey as the Medjliss-i-Khass, or Privy Council. There are thirteen ministers of Cabinet rank, namely, the Sheikh-ul-Islam, the Ministers of the Interior, of Foreign Affairs, War, Finance, Marine, Commerce, Public Works, Justice, Public Instruction, and of Pious Foundations, who, with the President of the Council of State, and the Grand Master of the Artillery, form the Medjliss-i-Khas. The Sultan, though, as will be seen by this list, he has an official Minister of Foreign Affairs, keeps the thread of negotiations with the Foreign Ministers jeolously in his own hands, and has on the whole shown acumen and address in dealing with the complicated questions ever arising. His policy has been to maintain, so far as may be, an equilibrium between the forces which, according to ever varying circumstances, now threaten and now support the integrity of the Ottoman dominions. There are, said a predecessor of Kiamil Pasha in the vizierate, six horses pulling at the Turkish coach; if they all pulled together they would drag it to the abyss; so long as they pull different ways it is safe. The Sultan Abdul Hamid has succeeded tolerably well in keeping the horses tugging vigorously in different directions. He has had the address to pay Russia but £1,614,000 of the war indemnity of some £33,000,000, leaving a balance still due of nearly £31,000,000. This achievement is creditable to the perfection to which His Imperial Majesty has carried the art of gaining time.

THE Bengal-Nagpur Railway was opened throughout early in March, and we should naturally have looked to an official return of the rail borne traffic in the Central Provinces issued at the beginning of September to give a reasonably full indication of the influence that the completion of the line has had upon the movement of produce. The return now to hand, however, does not bring the figures beyond the end of March. However, the statistics show that the line was already contributing in very large measure to the Bombay export trade. Nine lakhs and three quarters of maunds of wheat went out of the Central Provinces in the quarter, or two and three quarter lakhs in excess of the exports of the first quarter of 1890, and, practically, the whole of this was consigned to Bombay, and a little more than a fourth of it was drawn from localities tapped by the Bengal-Nagpur line. Rice exports rose from three and three-quarter lakhs of maunds to nearly five and-a-half lakhs, and they must have been largely added to since the completion of the line, for the rice country south of the line in the district of Sambalpur is very productive, and was expected to supply a large trade in Bengal and the North-West. In the quarter under report, however, the bulk of this rice went to Berar and the Bombay Presidency. The large expansion of the rice traffic was due to this line, and the same may be said of the movements of seed, which were very large, linseed having almost exactly doubled in quantity, while the *til* rose from 3,79,000 maunds to 6,34,000 maunds. Nearly all of it was consigned to Bombay. The whole export trade of the quarter—over forty-five lakhs of maunds—was nearly fifteen lakhs and-a-quarter in excess of that of the first three months of 1890, and the official reporter observes that, though the increase shown was very striking, exports reached an even higher pitch of activity in the second quarter. This, with the recollection of the aspect of the Bombay docks and of Wari Bandar last hot weather in our memory, we can easily believe.

CARDINAL MANNING, in reply to a Radcliffe correspondent who wrote asking if his Eminence approved of bazaars for church purposes, says all his life he has done his utmost to prevent the holding of bazaars, lotteries, and raffles for works of charity or religion. It seems to him that our Lord's works ought to be done in our Lord's way, for His sake, and with the purest motives. We are all in danger of lower motives, and certainly ought not to encourage them.

AT the annual Conference of the Wesleyan Reform Union, at Shipley, near Bradford on Wednesday, August 12, a resolution was passed requesting the churches to pray for the conversion of the Prince of Wales, and also deeply regretting that the Prince should by his habits encourage the spirit and practice of gambling. The resolution further called upon the Prince to abstain from practising pernicious gambling habits, "so as to become the leader of the moral rather than the immoral forces of the nation." A resolution was also passed condemning the Free Education Act as very defective and unsatisfactory.

AN ingenious suggestion has been made to the Brussels authorities in regard to the electric lighting of their principal streets, and particularly of the Grande Place. It has hitherto been objected to the plans for electrical illumination of this square that the poles on which the electric lights were hung and all proposed improvements in the lamps were out of harmony with the surrounding architecture, and were apt to be an eyesore in the day-time. It is now proposed that the lights shall be shed upon the square from tall steel standards, which will be sunk in deep sheaths underground in the day-time, and will be elevated by hydraulic pressure at dusk when they are wanted.

AFFRAY AT AGRA JAIL.

A daring attempt was made at the Agra Central prison on Thursday night by a batch of life prisoners, chiefly notorious dacoits, to escape. Having freed themselves of their fetters they wrenched out the iron gratings of the barrack they were confined in, and forced open the door. They were preparing to make good their escape, when some of the convict burkindazas and warders on duty spied them and gave the alarm. Every one near to the scene soon collected to capture the convicts. A hand to hand fight ensued, the prisoners making a stubborn resistance and freely using stones, brickbats, etc, that came to hand easily. The police was then called in, and not until a few shots were fired by them to intimidate did the prisoners submit. Three of the prisoners succumbed to the wounds received from lathi blows, while others are lying in hospital wounded more or less. The European jailor and some of the convict burkindazas and warders have received injuries. Very creditable was their conduct through the affair.

THE RAMPUR MURDER.

An inquiry was held yesterday by the Magistrate of Bareilly, into the charges against Mahummud Mustaphakhan and his brother Saidullakhan, under section 14 of the Extradition Act in connection with the Rampur murder. The charge being made, Mr. Vansittart, for the accused, stated that Rampur not being an independent state within the meaning of the Extradition Act, the court had no jurisdiction, as no requisition had been made within the meaning of section 14 of that Act. The objection being heard, the Magistrate said he could not go behind the orders of Government, and whether the order was good or bad he was bound to carry it out. Mr. Vansittart claimed that the accused should be tried as an Indian subject. Mr. Dillon, public prosecutor, asked for this claim to be recorded. Eight witnesses, including the Civil Surgeon, who attended the deceased, were examined. Cross-examination reserved.

BOMBAY RIFLE CLUB.

THIS Club, which dates its existence from the 1st of August last, has already enrolled sixty-five members, and this number is daily increasing. Volunteers, Regulars and Civilians are eligible for membership, and under the heading Volunteers, cadets are included. The Regulars include both the Army and Navy. A book of rules has been drawn up, a copy being supplied to each of the members. Those desirous of enrolling themselves have to be proposed and seconded by a member of the Club, and then approved of by the committee. The monthly subscription, payable in advance, for cadets, is annas 4 ; for members of the Army and Navy, annas 8 ; all others one rupee. In a match the rules of the Indian Rifle Association are applied with regard to handicaps, and the minimum 'pull-off' of trigger for rifles and carbines. As soon as arrangements permit, it is intended to hold a Silver Spoon Competition once a week, the entrance fee for which is annas eight. The Club has already been presented with a Silver Cup by Messrs. Green and Co., which is to be competed for by members.

A MATCH was fired on Saturday between two teams of members of the Rifle Club, Quartermaster Sergeant W. Stephen's team winning by 5 points. Scores :—

CRICKET.

BOMBAY GYMKHANA *VS.* Y. M. C. A. C. C.

AN exciting and well-contested game on Saturday resulted in the defeat of the Gymkhana, although it must be admitted the latter were unable to put by any means a strong team into the field, and they had the Brothers Clark, upon whom they usually depend to a great extent for bowling, playing against them. Still they could not be said to be badly off for bowling, having Messrs. Rogers and Macbeth, both of whom were in capital form, but they were not so successful with the ball as Mr. F. J. Clark was for the Y. M. C. A., he having the splended analysis of 6 wickets at the expense of only 14 runs, in ten overs. The Gymkhana, who won the toss and batted first, made a most promising beginning, Messrs. N. Durrant and Johnson for a time doing what they pleased with the bowling, notwithstanding several changes ; but when they were disposed of, and Mr. F. Clark took charge of the ball, a remarkable change took place, wicket after wicket going down with startling rapidity, till all were out for the small total of 60 runs, not leaving the Y. M. C. A. a heavy task to win. But if the Gymkhana opened well, the Y. M. C. A. did not make at all a brilliant start ; and as the wickets went down the game grew intensely exciting, until when seven were dismissed for 50 it looked as if the Gymkhana might after all prove victorious. But the "tail" of the team played up well and the Y. M. C. A. eventually won by 33 runs.

Captain Smith and Mr. Norman Durrant, who first represented the Gymkhana, made a good start, settling down at once as if determined to punish the bowling of Messrs. Hildreth and Hale, who undertook the attack. The score went up briskly to 19 mainly by Mr. Durrant's free batting, when Mr. Boileau, who had been put on as first-change bowler, dislodged the captain's bales. Some excellent batting was witnessed when Mr. Johnson partnered Mr. Durrant. Runs came rapidly, several changes of bowling proving ineffective, until finally Mr. Durrant, with a well-played 20 to his credit, was bowled by Mr. Hale. After that a change came over the aspect of affairs. It was thought Dr. Carson would prove a lively partner to Mr. Johnson, but the doctor's show was disappointing, for after scoring a single, Mr. F. Clark, who was now bowling, spread his wickets. After that the display made by the Gymkhana was a miserable one indeed. Mr. Clark's bowling was most deadly, and he sent the wickets flying one after the other in a manner that was most exciting. The innings closed for 60.

With a light task before them, the Y. M. C. A. sent in Messrs. F. Clark and Hale first to the bowling of Messrs. Macbeth and Rogers, and Mr. Clark opened with a pretty drive, which fetched 5. He did little more, however, for after adding 3 he was beaten by Mr. Macbeth. Mr. George next went in, making a good beginning with a 3 drive. A few more hits brought his score up to 7 and the total to 20, when he missed a straight ball from Mr. Rogers and was clean bowled. Mr. James, who was Mr. Hale's next partner, made a very short stay at the wickets, being soon stumped by Mr. Johnson (3 for 26). The game grew brisker when Mr. H. Clarke went in, until Mr. Hale was tempted out of his ground by a short pitched ball delivered by Mr. Rogers, missing which, Mr. Johnson, who never throws a chance away, promptly stumped him (4 for 36). Mr. Winkler did not keep Mr. Clark company long, and then the latter also got his wickets spread by Mr. Macbeth after just reaching double figures. This made 6 wickets down for only 48 runs, and when Mr. Boileau went out after adding only 2, thus raising the score to but 50, it was thought the Gymkhana, having only three more wickets to dispose of, might, if they did not exactly win, make a close match of it. Mr. Hildreth, however put a different face on the aspect of affairs, for he had not been long joined by Mr. Leggat, when he took the winning hit, and when Mr. Leggat was disposed of by Mr. Macbeth, the Y. M. C. A. were two runs ahead. Then Mr. Lynn, the last man, made an unexpected stand along with Mr. Hildreth, rattling up 10, until the latter, who made his 28 very rapidily was, through an unfortunate miscalculation, run out, and the winnings closed for 90. The following are the scores :—

MILITARY NEWS.

HIS EXCELLENCY THE COMMANDER-IN-CHIEF, Bombay Army, accompanied by Brigadier-General Gatacre, Adjutant-General and Brigadier-General Hogg, Quarter-master-General, arrived at Deolali at 1-30 p.m., on Friday, and left by the mail train at 4 a.m., yesterday morning, for Nandgaum, about 65 miles from Deolali, on the G. I. P. line of rail, where his Excellency will take the road for Malegaon (Malligaum) and after inspecting the place he will return to Nandgaum and proceed to Poona by the Dhond and Munmad line.

His Excellency while at Deolali had a busy time of it. He was on the rifle range at 7 a.m., and witnessed the School of Musketry class firing, and the use of a new dummy target, the invention of Major Rossiter, 2nd Durham Light Infantry, Chief Instructor, School of Musketry, and after spending some considerable time on the range he inspected the station hospital. After breakfast he inspected the detachments of the King's Own Yorkshire Light Infantry and Connaught Rangers, made enquiries as to how the men liked the station, and complimented them on their appearance and the smartness of their turn-out. Colonel Symons, the Commanding Officer of the King's Own Yorkshire Light Infantry, who is at Deolali on special duty, attended the parade. His Excellency inspected the barracks, temperance rooms, canteen, institute and the commissariat, and in the evening dined with the officers at the mess, where a guard-of-honour from the detachments of the two corps stationed at Deolali was drawn up. Mr. Borri, of the refreshment rooms, Victoria Station, provided the dinner.

SURGEON H. S. HENDERSON has been appointed to the medical charge of the 35th Sikhs ; and the following surgeons have been appointed to the officiating medical charge of the regiments named :—J. M. Crawford to 7th Bengal Cavalry ; J. C. Vaughan to 8th Bengal Cavalry ; A. Coleman to 5th Bengal Infantry ; C. H. James to 20th Punjab Infantry ; B. J. Singh to 26th Punjab Infantry ; A. J. Macnab to Corps of Guides ; and J. K. Close to 1-2nd Gurkhas.

THE appointments of Surgeons J. C. Lamont and H. W. Elphick to the officiating medical charge of the 8th Bengal Cavalry and 20th Punjab Infantry, respectively, have been cancelled.

COLONEL C. W. BABINGTON, 12th Bengal Infantry, has been granted one year's leave to England on private affairs ; and Lieutenant R. E. Foley, 45th Sikhs, one year, on medical certificate. Captain H. Wright, 11th Bengal Lancers, has been granted leave to Kashmir to 15th October next, and Surgeon Haselden, Medical Staff, to Kashmir, for three months, on private affairs.

MAJOR MOSS, 1st Worcestershire Regiment, having resigned the acting appointment of paymaster, Deolali Depot, will probably be replaced by Captain C. Sandes, of the Army Pay Department, attached to the 1st Royal North Lancashire Fusiliers, as a temporary measure, and now at Deolali, on sick leave.

TEMPORARY leave of absence for ten days is granted to Captain K. S. Davison, Deputy Assistant Adjutant-General, Allahabad District, from 3rd September 1891.

A BERLIN correspondent states that Italian workmen have been engaged under an eighteen months' contract to build the fortifications of Heligoland.

THE HYDERABAD JEWEL ROBBERY.

AT the Girgaum Police Court, on Saturday afternoon, the case in which Nawab Mahomed Askarikhan charged Azamjang Shere Afghanjang, Khalilullakhan Azamjang, and Jalalikhan Itlizadjang with receiving and having in their possession stolen jewellery, worth about seven and-a-half lakhs of rupees, the property of the complainant, came on for hearing before Mr. W. R. Hamilton, Second Presidency Magistrate. Mr. Jardine, barrister-at-law, instructed by Mr. Edgelow, of the firm of Messrs. Macfarlane, Edgelow, and Hemming, appeared on behalf of the complainant ; Mr. Hormusjee Chichgar, of the firm of Messrs. Nanu and Hormusjee, appeared for the three accused Nawabs ; and Mr. Mir Sarfrarally, barrister-at-law, instructed by Mr. Mirza Hoosein Khan, solicitor, appeared to watch the case on behalf of the family of the three accused.

Nabob Goolam Dastagirkhan, uncle of the complainant, Nawab Mahomed Askarikhan, whose examination was begun on the last occasion, was recalled and further examined by Mr. Jardine.

Mr. Jardine : On the last occasion you told us how Maetoolla had come and left the place without searching Jalami's house. Now tell us why did he not search Jalami's house ?—Maetoolla told us that the police refused to listen to what he said and defied his order, so he was helpless and could not search Jalami's house. There was a great noise and row going on at the time, and the police did not give him any assistance.

Mr. Jardine : What next took place in reference to this case ?—We all then went to our house. A messenger from Kotwal came and asked Maetoola to go away and Maetoola also left.

Mr. Jardine : Was the matter transferred to any other court ?

The witness, who spoke Hindustani, could not exactly understand the question and so he replied : "We all then left." The question was again interpreted to the witness, but as he still could not understand it was not repeated.

Mr. Jardine : What next happened in connection with this case ?—That day nothing further happened, but the next day the city magistrate came to make enquiries into the matter. He first came to the complainant's house and then we all went to Jullamikhan's house. The city magistrate wanted to see Jalami, but he was refused admittance into his house. He insisted upon seeing Jalami, saying that he was a magistrate and he was entitled to go into his house. The city magistrate then tried to go in, but some Arab servants of Jalami pushed him back. There was then only one police officer. The city magistrate then wrote a note to the Sirkar. Shortly afterwards two Sirkar's *chobdars* came and told the magistrate that he had not received any right from the Government to search the house and so he had better not make any investigation, but go away. The magistrate accordingly went away.

Mr. Jardine : What happened afterwards ? Maetoolla came to the complainant's house again. He examined the hole through which the entrance had been effected into the room in which the jewellery was kept. He also examined the jewellery room. The door of the room was shut from inside, and it was opened by using great force. Some earth was found lying in the room. The locks of the box had been forced open, and there were chisel marks on the box. Maetoolla then went away. The case was then referred to the superior court, who called upon the Kotwal for an explanation in regard to the case. The case was then given in the hands of Inspector-General Rustomallikhan, who asked the supreme court for an order to arrest the accused. He received a reply that he had the power to arrest the accused, and he should act on his own authority. At this stage the Prime Minister appointed a commission, who issued an order stopping all police inquiry. Goolam Moostafkhan, the assistant of the Inspector-General, came to the complainant's house. He inspected the toshikhana. Khalilullakhan opened the hole. He then made a rope-ladder, which was fastened to a beam, and a man was sent down into the room by means of the rope-ladder. The man brought out a box larger than the *pandau*, which was found in the accused Jallami's house.

Mr. Jardine : Had you succeeded in making a search of Jallanikhan's house ?—No. The commission appointed to investigate into the matter had not made any order to search the house.

Mr. Jardine at this stage asked his Worship to postpone the case, saying that it was impossible to go on without an Urdu or Hindustani interpreter.

His Worship was also of the same opinion, and remarked that if the case would go on at this rate it would take a year to be finished. He asked the parties to produce an able interpreter, and Mr. Superintendent Brewin having consented to get a proper interpreter at the next hearing of the case, his Worship adjourned the case to Saturday, the 12th instant.

A FIRE-BRIGADE PARADE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I shall be obliged by your allowing me to inform members of the Corporation and the public through your columns, that (weather permitting) I have ordered a small parade of the Fire Brigade, with such steamers and manuals as can be spared, to be held opposite the Municipal Offices next Tuesday at 5 p.m., or whenever the Corporation adjourn, in order that Councillors may have an opportunity of inspecting the men in their new dress and equipment.—Yours, &c.,

H. M. ACWORTH,
Mun. Comsr. for the City of Bombay.
Municipal Offices, Bombay, Sept. 6.

INDIAN COTTON PROSPECTS.

THE first general memorandum on the prospects of the Indian cotton crop of the season, 1891, is as follows :—

Except in the Bombay Presidency, where the deficiency is less than 4 per cent. or 50,480 acres, the area of the early cotton crop has been seriously affected by the absence of rain during June and the greater part of July, which is the chief month of sowing operations. In Berar there is a falling off of about 402,000 acres or 18 per cent., in the Punjab of about 234,000 acres or 28 per cent., in the North-Western Provinces of about 510,000 acres or 30 per cent., and in Madras of about 34,609 acres or 45 per cent. In the Central Provinces not more than half or two-thirds of a full crop is expected. The plant is everywhere unusually backward and has been much damaged by excessive rain in the Central Provinces and the Northern parts of Bombay ; in the Punjab by locusts, and in Madras drought. In Berar, prospects are favourable.

NEWS OF THE DAY.

THE Allahabad paper much regrets to hear of the death at sea on Monday of the Rev. James Lillie, the Senior Chaplain of the Church of Scotland in India. The event is the more sad, that Mr. Lillie had just completed his term of service and was on his way home to enjoy a well-earned rest. For ten years between 1878 and 1888 the deceased gentleman was minister of St. Andrew's Church, Allahabad, and has since then been in Calcutta. Wherever he went Mr. Lillie won the respect and admiration of all by his unwearied industry and devotion to duty. He had a high idea of the responsibility and sacredness of the pastor's calling, and strove faithfully to act up to it. Few engaged in religious work in India succeeded better.

THE *Madras Mail* says :—Mr. Patrick Macfadyen and Mr. William Digby, C.I.E., two Trustees of the Indian Famine Fund, have authorised the third Trustee, Archbishop Colgan, to release the balance of the Fund now with Messrs. Arbuthnot and Co. on certain conditions. We understand that the Archbishop has referred the matter to Government for an expression of opinion.

A COUPLE of natives were detected two or three nights ago in a novel attempt to defraud the East Indian Railway Company. On the arrival at Katni of the mail train from Jubbulpore, when a carriage examiner went beneath the train to gauge the wheels, the two natives were found in a hammock-like contrivance slung to the bottom of an intermediate class carriage. They were taken into custody, and have been brought in for trial. One is inclined to hope that the experiences of their journey will be taken into account by the Magistrate as part of the punishment.

A PROPOSAL is now before the Government of India to send a wing of the 13th Native Infantry from Dinapore to Shillong to relieve the 36th Sikhs. It is not improbable that the garrison of Dinapore may be permanently reduced. There is an idea of building barracks at Darjeeling for a wing of a British infantry regiment, and when this has been carried out, half a battalion will be withdrawn from Dinapore.

THE Accounts of the Macgregor Memorial Fund have now been closed. The monument by Signor Albano has been placed in the crypt of St. Paul's Cathedral, and a portrait by Mr. Archer has been hung in the room of the United Service Institution at Simla. Macgregor Memorial medals have also been founded for encouraging reconnaissance and exploration work. Between Rs. 13,000 and Rs. 14,000 were collected in India, and over £400 in England. A sum of Rs. 6,000 has been invested in Government paper to meet the annual cost of the medals.

LIEUTENANT DAVISON, although employed by Captain Younghusband, it is said is not placed on special duty. His story is that he went to Ladakh with the intention of exploring, that his party deserted him, and that he had no alternative but to proceed to Yarkand.

THE notorious "elephant bear of" Jugatsukh "in Upper Kulu," was shot by a native *shikari* a few days ago. This brute, which was an unusually large specimen of the snow bear, had for a long time past been the terror of the shepherds in those parts. He was known to have killed upwards of one hundred sheep, besides a number of cattle, and several ponies, nearly all mares with their foals. Unfortunately he was skinned before accurate measurements could be taken. The native version has, that he was half as big again as an ordinary snow bear.

A PROPOS of the Russophil mania which is now so strongly prevalent in France, a Paris correspondent says that the French papers contain accounts of Russian manifestations in a dozen French towns. In one a newly promoted colonel orders the band to play the Russian Hymn in the streets. In another the local athletic club on returning from a match in another town is received at the station with cries of "Vive la Russie !" In others the pretexts for manifestations are equally futile. The *Figaro* has the following skit, which shows how even Frenchmen can see the absurdity of some of their countrymen :—Evereux, 11th Aug.—An imposing manifestation took place this afternoon in front of Alfred's Library. A map of Russia having been displayed in the window five hundred persons assembled in front of it with cries repeated a thousand times of "Vive la Russie." Perigueux, 11th August.—A stiring scene occurred yesterday at the table d'hote of the Grand Hotel du Perigord. The waiter having set on the table a charlotte Russe, all the guests ate it standing and with cries of "Vive la Russie."

AN American lady journalist, Mrs. Theresa Dean, correspondent of the Chicago "Herald," was walking up the Boulevard Haussmann the other day, a Paris correspondent writes, when a man snatched out of her hand a reticule cantaining 40*l*. and bolted. Mrs. Dean was so over-come as to remain speechless, and the thief never would have been discovered but for his own imprudence. Henri Durand, who is an assistant gaoler at the depot prison, as it appears, made a large number of friends among the inmates, and what is more to be regretted has caught their bad habbits. Meeting one of his old prison acquaintances he showed him, out of bravado, the reticule he had stolen. The relations of the two friends were, however, altered, for while the gaoler had become a thief the old thief had, a few days ago, repented, and had become attached to the secret police. Upon his information Durand was arrested. Upon his denial he was confronted with Mrs. Dean, who reognised him, and nearly fainted with emotion. Durand was sent back to the prison, but, alas, no longer in the capacity of gaoler.

A FLOWER show was being held on Monday afternoon, July 27, in the grounds of Mr. Forrest Grymsdyke, at Lacey Green, Wycombe, Bucks, when a terrific thunderstorm came on, with great flashes of lightning. At the height of the storm the lightning struck a group of four men, three of whom were instantaneously killed, and the other was seriously injured. The Rev. Mr. Wallace, of Bromley, Kent, was delivering a lecture on bee keeping in a tent near the tree when the fatality occurred. A man named Richardson was drawing a hive, and while the four men gathered under the tree were watching the operation a flash of lightning was followed by a series of reports like a discharge of musketry. The visitors on looking towards the tree were horrified to see the men lying huddled on the ground. On going to their assistance it was found that in three cases life was extinct. The names of the men killed are Henry Bowler, 22, chairmaker, Sheen ; George Adams, farmer's carter. Lacey Green (married) ; and John Eggleton Wardrobes Farm, Loosley Row.

M. LEVRAUD, himself by the way a medical man and president of the Municipal Council of Paris, has just received a cheque for 100,000 francs, or £4,000, from a Russian gentleman resident in Paris (writes the *Lancet's* correspondent). The cheque has been deposited by the president in the municipal counting-house while awaiting the decision of the Council as to the acceptance or refusal thereof. The object of this Rusian philanthropist is to introduce a system of medical reform into the hospitals of Paris, as a result of which, he considers, many lives will be saved and much money economised. Should the reform prove successful, the same generous donor undertakes to found a hospital for the poor on the new system. The money deposited is intended as a means for trying the experiment in the hospital of Paris in which the greatest mortality at present occurs. We are not told precisely what the second "Novum Organon" is, but we are comforted by the assurance that it implies a reliance on the remedies indicated by nature, and the eventual suppression of doctors and medicinal drugs.

IN Naples the report is repeated and confirmed that the Prince of Monaco intends, at the desire of his wife, to suppress the gambling houses at Monaco on the lapse of the contract with Messrs. Blanc. The Princess of Monaco then intends to fit up the magnificent gambling halls as a hospital for poor consumptive patients.

EXTRACTS from the letters of a sportsman at present in Manica, published in the *Umtata Herald*, give interesting and exciting details of the big game prospects of that territory. Writing from the vicinity of the Pungwe River (where he says all is quiet now, and good health prevailing), he adds :—"The game most plentiful is buffalo, sea-cow, elands, hartebeest, blue wildebeest, roan antelope, sable antelope bush-buck, and many smaller kinds of game. One afternoon a native chief asked me to shoot some hippopotami, and, as I had nothing to do at the time, I went out and shot six of the brutes. One day also, when I had about 200 native followers, I rode out from the waggon, (this was, of course, after I returned to same), and shot seven very large elands. The weight of some of these must have been about 1,400 lbs. each. On another occasion, when coming from the Pungwe to where we left the waggon, I had to get some meat for my boys, and as we did not want much I was trying to shoot a bushbuck, when I fell in with a pig and shot it instead. Imagine my surprise when next moment I heard a crashing of the bush ahead, and coming towards me immediately I saw a herd of about 350 to 400 buffalo, with heads down and tails in the air, smashing everything that came in their way. I guessed at once what this meant, and rushed in behind a lot of bamboos to save myself from being trodden to death by the mad brutes in full stampede."

A CRIME attributable to jealousy has been committed at Roubaix, Lille. The victim was an attractive widow named Marie Lesaffre, one of whose friends, a M. Consart, had left her lately, intending to break off the *liaison*. The widow made many efforts to induce the young man, who is respectably connected, te return to her, and she telephoned to him asking him to visit her at her house. M. Consart did so, and found Madame Lesaffre at supper. She exasperated him by boasting of the magnificent gifts which she said she had received from other admirers, and he suddenly took out a revolver and fired at her. The widow, pierced by three bullets, fell dead, and Consart went off to the nearest police station and gave himself up as the murderer of his mistress. Madame Lesaffre was found lying on the floor, one of her hands clasping her purse.

DURING a recent debate in the Canadian House of Commons on a proposal to prohibit the liquor traffic, a member of the Opposition attacked the Minister of Finance on the ground of inconsistency, and quoted from a speech delivered by the honourable gentleman several sessions previously, containing an explicit declaration in favour of immediate prohibition. In his reply the Minister admitted having made the statement now brought up against him, but said he did it in a moment of weakness, being unduly influenced by the fear of criticism from his friends. Some time after this debate the Opposition member discovered that he had been quoting from a speech made on his own side of the House, and that the words actually admitted by the Minister had never been uttered by him. On the offending member's confessing his mistake, the Minister said he would not have known that the words quoted were not his own but for the honourable gentleman opposite calling his attention to the fact.

IN a report addressed to the Prefect of the Seine with regard to the municipal and other free libraries is Paris and the suburbs, it is stated that they now number 64, and that they are attached to the different town-halls and communal schools. The number of books given out to read last year was 1,386,642, and of these 690,105 were novels. The artisans, who use these libraries the most, and who prefer reading at their own homes, appear to be very scrupulous about returning the books given out, as the annual loss does not amount to ½ per cent, and when the books are not returned this is due to carelessness rather than fraud. The great preference shown for works of fiction induced the administration to instruct the librarians to bring their influence to bear on the frequenters of their libraries and get them to read more serious and instructive books, but the only result of this was to effect an immediate decrease in the number of readers. The attempt was, therefore, given up, the administration preferring that the public should read novels rather than not read at all.

A SENSATIONAL robbery has been perpetrated at Columbus Grove Ohio. An unknown man entered a bank, presented a revolver at the cashier, and fired, though happily without injuring the latter. The cashier instantly seized a loaded revolver, which appears to have been kept behind the counter, and shot at his assailant, who, however, successfully dodged the bullet, and before the cashier could fire again with any hope of a shot taking effect snatched a bundle of notes, of the value of 1,500 dollars from the counter. Then, to make sure his escape and prevent pursuit, the scoundrel fired upon two customers who were in the bank, instantly killing one, and wounding the other, and shouting "I am a second Jesse James," fled into the street. Persons in the street having heard of what had happened, followed the thief, who thereupon turned and fired upon his pursuers, compelling them to retreat. He made good his escape, and though a sheriff's posse have since been in pursuit the murderer remains at large. The "Jesse James" to whom he referred will be remembered as the notorious train and bank robber.

THE Glasgow ship Ben Nevis, 1,060 tons, Captain Pike, which arrived at Queenstown on Tuesday, August 11, from Timaru with a cargo of wheat for orders, reports having had terrible weather during the voyage, and shipped several seas which swept the vessel's decks. The cabins were flooded to the depth of several feet, and the provisions were destroyed. Four life-boats were smashed into pieces, the bridge broken, after skylight smashed, and top-gallant mast and bulwarks carried away. Several sails were blown into ribbons, and a house on deck was burst in with the heavy sea. A lot of running gear was carried away, and altogether the crew had a terrible time of it while the hurricane lasted. The cargo also took fire, and it was found necessary to open the hatches, and the crew, in the most heroic manner, although almost suffocated, succeeded in getting out several tons of the burning cargo, which was thrown overboard.

IN her love of change and travel, the Archduchesse Stephanie, the widowed Crown Princess of Austria, surpasses, says a Vienna correspondent, even the Empress Elizabeth. After having spent a week in Bayreuth, she travelled in Germany, visiting Coburg and other places, and on the morning of the 7th ulto. she arrived at Vienna. She paid a long visit to the Coburg Palace, in which Princess Clementine and Prince Ferdinand of Bulgaria are staying, and then left from the Southern Terminus for the Tyrol.

A STRIKING demonstration of the well-known tremendous growth of Californian trees is being prepared for the World's Fair at Chicago. There is one enormous trunk in Tulare county, from which it is said a log of clean smooth wood, to measure 90ft. in length and average 20ft. in diameter, can easily be cut. Out of this enormous log it is proposed to build a complete railway train. To get the hewn tree to a railway station it will be necessary to cut it into sections. Then the log will be made whole by the putting together of the sections. Expert woodsmen will cut it across in the middle, making two lengths each 45 feet long. Each of these lengths will then be hewn into the shape of ordinary railway passenger coaches. The rough bark of the tree will be the roof of the car, and on the sides and ends the natural wood will be left unpolished. The inside will be hollowed out, windows and doors put in, and the interior finished after the fashion of Pullman cars. Platforms will be put at the ends and ordinary trucks underneath, and to prevent the transformed tree from falling to pieces under any circumstances heavy bands of iron will be put round the body of the car. It is intended that the men of Tulare shall take their wives and children to the Columbian Exposition with the trees. The cars will be kept on the Fair grounds, and the delegation will make them their home. The portions of the tree not used in making the coaches will be cut up and sold as mementoes.

ARRIVAL OF THE OVERLAND MAILS OF THE 21st AUGUST.

THE P. and O. Co.'s s.s. Rohilla, Captain C. H. S' Tocques, with the overland mails of the 21st August, arrived in Bombay harbour at 7-30 o'clock last night. She brought the following passengers :—

THE WEEK'S MAIL SUMMARY.

LONDON, AUG. 21.

THE COURT.

THE Queen yesterday received at Osborne Admiral Gervais and the principal officers of the French fleet. The Admiral and commanding officers dined with her Majesty in the evening.

The Queen held a private investiture at Osborne on Tuesday, when a considerable number of officers and gentlemen were presented by her Majesty with the insignia of the several orders which had been conferred upon them.

The Prince of Wales arrived at Homburg on Monday evening.

The Princess of Wales, with her daughter Princess Victoria and the Duke and Duchess of Fife, left London on Wednesday for Copenhagen.

The Prince of Naples concluded his visit to Lord Willoughby de Eresby at Drummond Castle on Friday, and proceeded to Newcastle-on-Tyne. On Saturday the Prince visited some of the great manufacturing works on the Tyne, and in the evening he embarked at North Shields for Norway.

POLITICAL.

The election contest in Lewisham consequent on the succession to the Dartmouth peerage of the late representative, Lord Lewisham, is being actively carried on by Mr. J. Penn, Conservative, and Mr. Warmington, Gladstonian.

Mr. W. H. Smith, M.P., has sufficiently recovered from his severe illness to be enabled to take carriage exercise, and it is hoped that he will immediately be able to remove to Walmer Castle.

IRELAND.

Mr. Parnell, M.P., addressed on Sunday a large meeting at Kells, and replied to the recent speeches of Messrs. J. Dillon, and W. O'Brien, insisting upon his view that no British Government, whether Radical or Tory, could give Ireland Home Rule except under the pressure of a united Irish National party.

In the controversy thus raised Mr. Dillon has in bitter terms denounced certain of Mr. Parnell's statements as untrue, and Mr. John Morley also has repudiated certain declarations of Mr. Parnell's respecting himself. Mr. Parnell, however, in a published rejoinder insists on the accuracy of his statements in all respects.

The adjudication in bankruptcy against Mr. W. O'Brien, M.P., was annulled by agreement in the Dublin Court on Friday last. It is understood that arrangement was made that Lord Salisbury would facilitate the hearing in the House of Lords of the appeal on the original libel action.

GENERAL.

The French fleet, under Admiral Gervais, arrived at Spithead on Wednesday afternoon, and was welcomed with continuous cheering from the British ships, the assembled yachts, and the crowds collected on shore.

The annual meeting of the British Association for the Advancement of Science was opened at Cardiff on Wednesday, when Professor Huggins, the President for the year, delivered the inaugural address, the subject of which was the progress of astronomical science. Yesterday the various sections met, and many papers were read and discussed.

The Welsh National Eisteddfod was opened on Tuesday at Swansea. During the performance of a trio competition in the afternoon a sudden storm burst over the town, causing the canvas covering of the pavilion to give way, and one of the cross beams falling injured several persons, one woman dying from a fracture of the skull.

The service on Sundny in Westminster Abbey was especially intended for members of the Congress of Hygiene, of whom a large number were present.

The final general meeting of the Congress of Hygiene was held on Monday, when, after congratulations on the success of the meeting, it was resolved that the Congress should assemble in 1894 at Budapest.

The British Pharmaceutial Conference was opened at Cardiff on Tuesday, when Mr. W. Martindale, President, delivered the inaugural address.

Sir R. Moon, late chairman of the London and North-Western Railway Company, has presented a sum of £2,000 to found scholarships for young men employed in the various workshops of the company.

The borough of Swansea has been constituted a Quarter Sessions borough, and Mr. David Lewis has been appointed as Recorder.

A Co-operative Festival was held at the Crystal Palace on Saturday, and was largely attended. Addresses were delivered setting forth the rapid extension of the co-operative system and the benefits it was calculated to confer upon the working classes.

A special service was held on Saturday in Westminster Abbey in memory of the late James Russell Lowell, at which Archdeacon Farrer delivered an address on the life, character, and work of the deceased poet.

Lord Inglis, President of the Scottish Court of Session, died yesterday, aged 81.

The adjourned special meeting for discussing the question of sanitary progress in India was held on Friday, Mr. E. Grant Duff presiding. Several papers describing the unsatisfactory condition of native villages, including three from native gentlemen, were read and discussed.

The Lord Mayor of London, accompanied by the Sheriffs, arrived in Glasgow on Tuesday on a visit to the Lord Provost and Corporation of that city.

A large number of operatives in the iron ship-building yards on the Clyde, after being for eight weeks on strike, have resolved to resume work on the employers' terms, the trade society having refused to grant strike pay.

A gunner in the Royal Artillery at Woolwich, on Saturday, with a young woman, travelled to Globe-road Station and made some purchases with a view to their marriage. On returning, while in a tunnel, the man shot at the girl and then committed suicide. The young woman is expected to recover.

The wife of the steward of a Workmen's Club at Twickenham on Sunday cut the throat of one of her children, another escaping from a like attempt, and the woman then killed herself. She had been for some time in a hysterical condition.

Two executions were carried out on Tuesday. Walter Turner was hanged at Leeds, having been convicted of the murder of a child, and William Sadler at Chelmsford, for the murder of a man at Colchester. Robert Bradshaw, convicted of wife murder, was executed on Wednesday in Wandsworth Gaol. Yesterday John Conway, convicted of the murder of a boy, was hanged in Liverpool Gaol. The convicted confessed his guilt. A too extended drop from the scaffold caused a ghastly scene, the man's head being nearly severed from the trunk.

COLONIAL.

The disclosures at Ottawa of pecuniary transaction between Canadian officials and contractors for public works have further extended and public opinion is greatly excited. Mr. T. M'Greevy, a member of the Dominion Parliament, whose evidence was very damaging, has resigned his seat, and is stated to have left Canada.

FOREIGN.

The prohibition of the export of rye from Russia has greatly disturbed the corn markets of Germany and of Austria, and the German Government has decided to use wheat for bread for the army.

Reports from Russia state that the deficiency of rye for the wants of the Empire amounts to nearly 40 per cent. In apprehension of serious distress, the Government is making provision for the establishment of relief works in the form of new roads, barrack repairs, planting of forests, and other methods.

A series of *fetes*, to extend over some days, commenced at Barne on Friday, to commemorate the 700th anniversary of the foundation of that town, and large numbers of people were attracted thither.

On that morning, unhappily, a fearful railway collision occurred at a station close to Berne, where a passenger train was run into by the passing Paris express. Fourteen persons were killed and more than 20 others were severely injured.

The young King of Servia and his father, King Milan, arrived in Paris on Saturday night, and he was much cheered by the crowds assembled at and near the railway station.

Prince Ferdinand of Bulgaria arrived in Rustchuk on Friday, and, speaking at a banquet, he said that his two months' tour had convinced him that European opinion had turned in favour of the country.

The Russian Ambassador at Constantinople has demanded from the Porte an indemnity and other satisfaction for the recent detention at the Dardanelles of a vessel of the Russian Volunteer fleet with military reservists on board.

The Cesarewitch arrived in Moscow on Sunday from his extended Eastern tour.

An International Socialist Labour Congress was opened on Sunday in Brussels. Nearly 400 delegates, including 28 from Great Britain, have presented themselves.

The German Emperor has continued his short cruises on the Baltic coast. It is announced that his Majesty has almost entirely recovered from the accident to his knee and has regained his usual activity.

The British Mediterranean Squadron arrived off Villefranche on Monday, and the interchange of courtesies between the French naval authorities and the officers of the squadron was marked with great cordiality.

Later accounts from China intimate the possibility of further anti-foreign riots. The European Powers, by their representatives, are insisting upon the Chinese Government taking adequate measures to prevent a renewal of outrages, but the Government are believed to fear lest rigorous proceedings should lead to revolt in some of the provinces.

The preparations for the Presidential campaign in the United States in view of next year's election are being actively carried on. It appears at present most probable that Mr. Blaine (whose health is said to have greatly improved, will be the selected candidate of the Republican party.

OBITUARY OF THE WEEK.—R. J. Melville, Esq, late M. C. S.; Admiral Sir George Duckworth-King, Bart.; Lord Justice General Inglish; Sir T. Fairbairn, Bart.; Canon Carleton; Rev. H. Griffith; Mr. R. F. Fenning Count Strogonoff; M. Thonissen; Miss Robina F. Hardy, Duchess Eugene of Wurtemberg; and Mdme. Agar.

FALSE PERSONIFICATION AND FORGERY.

ON the 25th of last month Messrs. Kemp and Co. received an order for a case of Exshaw's brandy, purporting to have been signed by a Mr. J. M. Campbell. Messrs. Kemp and Co., believing the order came from Mr. J. M. Campbell, the Collector of Customs, sent the case of brandy together with a letter addressed to Mr. Campbell and a rupee for the license to mix spirits for making perfumery, by one of the company's coolies. The coolie went to the Custom house with the goods, and there he met a man, who passed himself off as the Collector and received the case of brandy as well as the letter and the rupee and signed a receipt for them. He then ordered the coolie to place the case of brandy in a victoria, which was standing outside the Custom's gates and drove away. On the 1st instant the Custom authorities wrote a letter to Messrs. Kemp and Co. asking them to pay their annual license fee of one rupee. Messrs. Kemp and Co. then showed their receipt-book and coolies' *chitti* signed by Mr. J. M. Campbell. Mr. Campbell, after examining the *chittis*, declared them to be forgeries. A Eurasian, named Duncan Guson Ross, at present unemployed, was pointed out to the police by the coolie as the man who had signed the *chittis* and received the case of brandy. Duncan Ross was brought up at the Esplanade Police Courts on Saturday and charged by Superintendent J. MacDermott, A division, before Mr. J. Sanders Slater, Officiating Chief Presidency Magistrate, with impersonating a public servant and inducing the delivery of an official letter and one rupee under section 170 of the Indian Penal Code. The prisoner, it will be remembered, was tried at the Bombay Criminal Sessions of the High Court some time ago for forging the signature of Dr. Banks, but was discharged. Superintendent MacDermott stated the particulars of the charge and Ross was remanded to jail, and on the application of the Superintendent the hearing of the case was adjourned till the 12th instant for the prosecution of further police enquiries.

THE DESTRUCTION OF DAMAGED GRAIN.

AT the Esplanade Police Courts, on Saturday, before Mr. J. Sanders Slater, Officiating Chief Presidency Magistrate, Somji Kallianji appeared on a summons taken out against him by Mr. P. C. Higgins, Superintendent of Markets, to answer the charge of having sea-water damaged grain in his possession intended for human food. Mr. Buckland, of Messrs. Crawford, Burder, Buckland and Bayley prosecuted for the Bombay Municipality, and Mr. DeSouza, pleader, defended.

Mr. Buckland in addressing the Magistrate said: It appeared that a good deal of wheat that had been damaged by sea-water had come back to Bombay by the s. s. Knight Companion, and this accused was one of those persons who had this grain in their possession. It created a great nuisance and the Municipality were daily receiving numerous complaints about it. A considerable quantity of the grain had been seized because, as it would be shown in evidence, it was intended for consumption as human food. Mr. Buckland quoted the sections bearing upon the offence which provided that "it shall be the duty of the Commissioner to make provision for the constant and vigilant inspection of animals, carcasses, meat, poultry, game, flesh, fish, fruit, vegetables, corn, bread, flour, milk, ghee, butter, and any other articles exposed or hawked about for sale or deposited in or brought to any place for the purpose of sale or of preparation for sale and intended for human food or for medicine, the proof that the same was not exposed or hawked about or deposited or brought for any such purpose or was not intended for human food or for medicine resting with the party charged. The Commissioner may at all reasonable times inspect and examine any such animal or article as aforesaid and any utensil or vessel used for preparing, manufacturing or containing the same. If any such animal or article appears to the Commissioner to be diseased or unsound or unwholesome or unfit for human food or for medicine, &c., &c., he may seize and carry away such animal, article, utensil or vessel, in order that the same may be dealt with as hereinafter provided. If any meat, fish, vegetable, or other article of a perishable nature be seized and the same is in the opinion of the Commissioner, diseased unsound, unwholesome or unfit for human food or for medicine, the Commissioner shall cause the same to be forthwith destroyed in such a manner as to prevent its being again exposed for sale or used for human food." Mr. Buckland continuing said it rested entirely on Mr. DeSouza's client to show that this wheat was not exposed or hawked about or prepared in any place for the purpose of sale or intended for human food.

Mr. Slater asked Mr. DeSouza, whether he admitted that the wheat was brought into Bombay, and the latter replied that it was not his client who was responsible for it. He said it appeared that the s. s. Knight Companion came into the Bombay harbour with a cargo of grain damaged by sea-water. Most of the cargo was jettisoned at sea and what remained was in a damaged state and was sold by public auction. Though his client admitted having the grain which was unfit for human food, yet he denied importing it.

Mr. Buckland dwelt upon the sections by virtue of which grain of perishable nature was to be destroyed since it was admitted it was not fit for human consumption or if it was considered not of a perishable nature it was to be taken before a magistrate for his opinion as to its condition and disposal. Dr. Weir, the Health Officer, could speak to the state of this wheat which had a most disgusting odour and it was hardly possible to think that it could be put to any use.

Mr. DeSouza said his ground of contention was very different. His Worship saw in sections 415, 416, and 417 of the Municipal Act that that provisions were in respect of articles intended for human food. But if he could prove that this wheat was utilised for other purposes he did not see how the prosecution could hold good. The sections dealing with the articles mentioned therein were meant to bear on such as were intended for human food and no other purpose. He (Mr. DeSouza) admitted the grain was not fit for human food; but because it was not fit it did not necessarily follow that it could not be put to any other use. He could say that this sort of damaged wheat was extensively used in preparing starch or what was more commonly known as *cunjee*, by weavers and dyers, one of whom assured him that the more putrid the grain was the better would be the starch obtained from it. A similar case had gone before Mr. Hamilton who adjourned the case to have a practical proof to see whether starch could be actually made out of the damaged grain. At present the weather was not favourable for drying the wheat and it was necessary to dry it before it was boiled and ground. If it could be shown by his client that it could be put to some use then the prosecution were out of Court. If the Municipality could show that they found the accused hawking the grain about for sale then Mr. DeSouza said the onus would lie upon him. It was therefore necessary for the prosecution to make out some ground for their complaint before shifting the burden upon the accused. The sections no doubt were carefully worded, but in the interests of his client he would say that the wheat was not intended for human consumption but for starch. The prosecution would have to prove the allegation that the grain was intended for consumption. Mr. De Souza pointed out to the Court that the auction of the grain was tolerated in the presence of a Municipal Inspector.

The evidence of Somjee Callianji was taken to prove that the grain could be utilised in making starch for which there was a demand not only in Bombay but also in Kattywar, where it was used for stiffening and sizing cloth. He also said he purchased 150 bags of damaged grain from the s. s. Knight Companion for which he paid Rs. 700. The grain was purchased at an auction at the Powder Works, Mazagon, in the presence of a Municipal Inspector, who allowed people to buy it. Before the removal of the wheat they had to pay heavy town-duty, and they received a pass from the Port Trustees. This wheat could be used for starch in sizing cloth or twist. There was a demand for it by dyers at Dadur, and weavers at Kutch-Mandvie. Witness could swear that he did not intend it for human food. If the Municipal Inspector had prevented persons from purchasing it witness said he would not have bought it.

Cross-examined witness said he intended selling the wheat to customers purchasing it for *cunjee*. This stuff was dried, ground and boiled into *cunjee*; *cunjee* was purchased by the maund at the bazaar rate varying from 8 as. to a rupee, according to its quality. The cost of washing the wheat, &c., was about an anna a bag. Witness said he did not tell the Municipal Inspector that he was going to dry the wheat, mix it with fresh wheat and export it to Kattyawar.

After some further discussion the case was remanded to the 12th instant, in order that a portion of the wheat might be selected by the Municipality, and prepared under their supervision, for the purpose of ascertaining whether *cunjee* could be made from it or not.

SUIT ON A PROMISSORY NOTE.

AT the Small Causes Court, on Saturday, Narayan Khatoo sued Chunder Pursram before Mr. Vanderstraten, Fifth Judge, for the recovery of Rs. 150 together with interest due on a promissory note passed by the defendant in favour of the plaintiff in October, 1890. Mr. Kursondass Chabhildass, barrister-at-law, appeared on behalf of the plaintiff; Mr. R. B. Banajee appeared for the defendant.

Mr. Banajee, for the defendant, denied consideration of the note and contended that his client gave his signature to a blank paper, which the plaintiff turned into the promissory note then sued upon.

Mr. Kursondass for the plaintiff submitted that there was good consideration for the note. His client, together with defendant and another person, purchased in partnership a large quantity of cotton and being unable to realize the sale of cotton in Bombay they mortgaged it with one Madow Bhimjee and received advances of money from him. In order to cover any losses, which the mortgagee might sustain in selling off the cotton, the plaintiff deposited Rs. 500 with the mortgagee. The defendant was then called upon to deposit his share with the mortgagee to cover the losses, but he expressed his inability to do so and passed the note then sued upon.

After hearing the evidence his Honour held that there was good consideration for the note, and passed a decree in favour of the plaintiff with professional costs.

BENGAL GOLD-MINES IN LONDON.

THE *Indian Daily News* is informed that there is some probability of several Companies being successfully floated in London to work portions of the Chota Nagpur Gold-Field. Mr. Simpson, on behalf of the Pat-Pat, Mr. Vansittart, for the Dadka, and Mr. Mervyn Smith, on behalf of the Bengal Gold and Silver Mining Company, are now in London, negotiating the sale or lease of parts of these concerns. That the London market is ripe for the bringing out of Gold Companies there is evidence in the recent sales of four blocks of land, aggregating less than a square mile in extent, for the large sum of £220,000, or over thirty lakhs of rupees. This sale was made by the Gold Fields of the Mysore Company, the purchasers being the Mysore, Goregaum, Nundidroog, and Ballaghat Companies. The land in question lies to the west of these Companies, blocks, and it is supposed that the underlie of the Champion Lode, which has proved so rich, will carry the reef into this land, where is will be found at a depth of some sixteen hundred feet from the surface. This enormous depth of shaft means four or five years of hard work to get to the lode, and the expenditure of many thousands of pounds; yet this delay and this large expenditure will not deter capitalists, if there is the certainty of the works proving remunerative in the long run. Even more recently than the sales above referred to, we see from the London financial papers that as late as the 6th of August last, a new Company, the Mysore Nagar Gold Mines, has been successfully floated for £100,000. The vendors receive £70,000 for a square mile of ground in Mysore, the working capital being £30,000. We note that the sale was effected mainly on the report of Mr. Mervyn Smith, M.E., M.S.A., who is now connected with the Bengal Gold and Silver Minning Company. We hope that this gentleman's services will be equally successful for his present Company. At the same time we think the figures as to the application of the share capital might more justly and advantageously be reversed.

Those who expect a return of the great gamble in the gold mining shares of last year, which has ended so disastrously for many, will be sadly disappointed. The London public are not so easily gulled to part with their money. Genuine title for approved land may find a market; but enormous prices for land exist only in the imagination of promoters, or of land outside the range of gold-bearing strata, yet put into the market with the most glowing accounts of auriferous reefs and gold bearing sands, will not be obtained in London as easily as in Calcutta only a twelve month ago. Those acquainted with mining affairs in this city will easily recognise the properties we allude to. And then the reckless speculation, the "builling" and "bearing" the market with false or garbled reports. It is this that we set our faces against. It was of such Companies we warned our readers. Legitimate mining has our warmest support, as we recognise the immense good a well-established gold industry would be to this country. This we have always held up. But bogus concerns, such as many of those brought out last year, and Company promotion for the promoters' interests alone we have persistently deprecated.

It will be seen that in London £30,000 is considered the least sum with which to work a *single square mile*. Now many of our Calcutta Companies have hundreds of miles of land to develop, yet not a single Company has got a paid up working capital of £30,000. One Company with 1,200 miles land has 2 lakhs of rupees of working capital, and out of this sum it has to pay for the purchase of its lands; another Company has 1,000 miles of land and a paid up capital of 1 lakh; a third has a share capital of 17¼ lakhs, with 3 lakhs to work and 30 miles to develop, and so on throughout the list. Of course not one of these Companies is in a position to carry on mining successfully. More capital must be had, and after the experience of the last few months, Calcutta will contribute no more. Capital must be had elsewhere, and in London the financial capital of the world, money is always forthcoming to conduct openly in any part of the world, so long as the proposed undertaking is well put before the public. We shall be glad of the success of the Companies now at work in London, How far they warrant success we are unable to say. Time alone can solve that question, but we hope—earnestly hope—that legitimate mining may have a chance of proving the capabilities of the gold-bearing reefs of Bengal, in spite of being handicapped with the numerous failures of which there is almost daily evidence in the High Court.

A HINDOO ANCHORITE'S DEATH.

MY first acquaintance with this narrative dates from my boyhood, says a writer in *Chambers's Journal*:—About the time of the occurrence I heard it related by my father; and his authority was the well-known General Avitable, Runjeet Singh's right-hand man, who was present. Those facts are that a certain "joghee" (Hindoo anchorite) said to possess the power of suspending at will and resuming the animation of his body, was sent for by Runjeet Singh, and declining to obey was brought by force into the tyrant's presence and ordered to give, under pain of death, a practical proof of his supposed power. He submitted perforce. He was put by his disciples through certain processes, during which he became perfectly unconscious; the pulses ceased, his breath did not stain polished mirror, and a European doctor who was present declared that the heart had ceased to beat. To all appearances he was as dead as Queen Anne. In this state he was put into a carefully made box, the lid was closed, and sealed with Runjeet Singh's own signet ring. The box was buried in a vault prepared in an open plot of ground under the royal windows at Lahore, and the place was guarded day and night by Runjeet's own guards under General Avitable's own supervision. Sun and rain came and grass sprang up, grew, and withered on the surface over the grave, and the sentries went their rounds, and the joghee's disciples and friends were all kept under careful surveillance, not to call it imprisonment. After forty days, in Runjeet Singh's own presence, the vault was uncovered and the box extracted from it with its seals intact. It was opened, and showed the joghee within precisely as he had been placed. He was taken out, dead still, to all appearance, but the body incorrupt. His disciples were now brought to manipulate the body in the manner which he had taught them, and which he had publicly explained before his burial. He revived, as he had said he would, and was soon in as perfect health as when he had suspended his life. He refused all gifts, and retired to his former retreat, but shortly afterward he and his disciples disappeared. It was not safe for such a man to live in the jurisdiction of so inquisitive and arbitrary a ruler. Runjeet Singh cared little for human life, which was his toy or plaything. No one who knows his historical character will for a moment admit that he would let himself be deceived or played upon in a matter on which he had set his heart. Each scene—the suspension of life, the burial, the disinterment, the reviving—took place in the tyrant's own presence and before hundreds of spectators in open daylight, and with every precaution that absolute despotic power could command. Runjeet cared little whether the man lived or died, so that his own curiosity was gratified. The guards under the palace windows commanded by Avitable would be anxious solely to carry out Runjeet Singh's wishes.—*Chambers's Journal*.

THE LION AND THE BABY.

WHEN Ismail Pasha, the extravagant Khedive of Egypt, reigned over that historical land, he had in his garden a large cage of African lions. One day, while he was walking in the garden, the keeper, accompanied by a little girl, entered, carrying a basket of meat for the lions. The Khedive walked towards the cage to watch the beasts eat. They were hungry and pounced upon their food with ravenous fury. Standing close by the cage, with her hands resting on the bars, was the little child. "Why do you permit your daughter to go so near the lions?" the Khedive asked of the keeper. "Oh" replied the keeper, "they are so accustomed to her they would not harm her." "Then open the door and put her inside," said the Khedive. The keeper with the submissiveness of those who know their lives will pay forfeit if they disobey their ruler made with his eyes an appeal for mercy. But, seeing none in the Khedive's face, he kissed the little one tenderly, lifted her up, opened the door, placed her inside, and, as the door swung to, he turned his face away and groaned. The little one, though she did not stir, seemed not afraid. The lions appeared surprised, and the largest and fiercest arose and walked towards her. The Khedive stood gazing at the scene calmly, with a curious smile. The lion went up to the child, smelled at her, looked at her for fully half a minute, then lay down at her feet and beat the floor with his tail. Another lion approached. The first one gave an ominous growl, and the second lion went back. The others crouched low, as if preparing to spring, but they did not. This continued for about five minutes, the big lion never taking his eyes from the girl, and ceaselessly lashing the floor. The Khedive by this time was satisfied, and turned to the keeper and commanded him to thrust a live lamb into the cage through another door. The keeper quickly caught a straying lamb and obeyed. As he did so, every lion sprang upon the lamb. "Take out the child," the Khedive commanded, and scarce had the words escaped him before the keeper, who had already run to that end of the cage, jerked open the door, snatched the little one out, and clasped her in his arms. The Khedive laughed, tossed the keeper a coin, and walked on.

WILD BEASTS IN INDIA.

"SOUTH AFRICA" writes to a home paper :—I see from the latest official statistics that the deaths from wild beasts in India are increasing. Tigers killed 975 persons, leopards 184, wolves 139, bears 110, elephants 57. The officials seem puzzled that matters are getting worse. There is no mystery about it, however. Our South African experience makes the cause perfectly clear. The Indian Forest Code has been transferred to this country, and it is so excessively severe as to protect the bulbs, the ferns, and even the grass in the forests. The intention of this rigour is to shut the natives out of the forests altogether, and, perhaps, for the protection of special kinds of wood that may be necessary; but the consequence is an immense increase of bush bucks and every sort of wild game, and, as a matter of couse, a corresponding increase in tigers (panthers) and leopards. There is only one effectual way of exterminating wild animals, and that is *by cutting off their supply of food*. Lions used to be plentiful near where I write this—on the Bontebuck Flats. The merino sheep were introduced, and spreading over the veldt with their shepherds and dogs drove out all the wild game, and since that the lions have disappeared.

It is a dishonour to the governing power in India to occasion such a slaughter among the helpless natives by failing to protect them from savage animals. What they ought to do is to employ the British soldiers to exterminate the game. That would make them real marksmen and soldiers, in place of being drilled machines, and object of pity and contempt to the Boers of this country. There is only one savage animal that can be reached effectually without cutting off its wood supply—the hyena. The forests here abounded with hyenas, but it was found that they would eat dead meat, and even carrion, and to suit their taste they gave them a good supply, seasoned with strychnine, and the hyenas were annihilated.

Snakes in India kill about 20,000 people annually. Giving a reward for venomous snakes brought into a Government office does not seem to be making much impression. It is a mere fancy, however, that the natives breed snakes for the small reward given. No one who knows the habits of venomous snakes and the difficulty of rearing them could believe that this is done to any extent, if at all. It is an excellent idea to destroy the brushwood near villages. That both cuts off the food of snakes—mice and small quadrupeds—and deprives them of a lair.

Another thing occurs to me. Hume remarks in one of his essays :—"When the old Romans were attacked with a pestilence, they never ascribed their sufferings to their vices, or dreamed of repentance and amendment." The same thing may be said about the laws of health, and a violation of one of these laws curiously enough is the most fertile cause of snake-bite. The Indians go about barefoot, and the injury done to the constitution by doing so, from the ground being burning hot during the day and cold at night, kills ten people for one killed by a snake. It is notorious that most of those who are bitten are so on the bare feet or ancles, and that a European is rarely bitten. Perhaps some old Indian among the readers of the *Scotsman* would suggest how the Hindoos could be induced to wear shoes. The only thing I can think of is that railways should be vastly increased in India. The people are steeped in poverty because they cannot send productions to a market. They are too wretchedly poor to afford shoes.

SHOULD WOMEN VOTE?

WE think they should! Because a women has mores good, hard, common sense than a man. Because she makes less bluster about her rights, but quietly maintains them all the same, and much better than a man does. Because she don't give thirty shillings for an article that she knows very well she can get for eighteen. Because she does not stalk loftily from the counter without her change, because the shopman is a bit reluctant about counting it out. Because she will hold her money tightly in her dear little right hand for two hours until she first gets a receipt for it from the fellow who made her husband pay the same bill three times last year. Not any "*Just give you credit for it*" for her. Women have the most brains, and by all that is brave, self-reliant and sensible they should vote and run the government. They have the hardest part of nature's tasks to suffer, they labour harder than men and more continuously, and with less complaint. Let a man suffer a little toothache and he will rave and scream and turn the world upside down, but a woman will suffer ten times the misery without complaint. A woman has a bear ten times the physical straip that a man does, and it is only natural that they should be more prone to weekness, debility, liver complaints headache and such simple ailments which though, perhaps not fatal in themselves are liable to terminate in serious disease if not promptly checked in their early stages. Thousands of women have been rescued from suffering and misery by a timely recourse to Clements Tonic, a remedy specially suited to the ailments for women, being especially suitable for anæmic, by hysterical, and hypochondrial constitutions. A lady well known in Parramatta, N. S. W., writes under date September 10th—"Sir,—Four years ago I caught a severe cold which settled in my head and chest, and caused an incessant cough and copious discharge of phlegm; this brought on weakness and debility. After considerable attention and doctor's treatment, the cough was relieved and finally cured, but the debility remained and seemed to defy the skill of the medical men and the power of medicine. I had no appetite, and could scarcely eat a particle of food, and was almost reduced to a skeleton, having entirely wasted away. I had taken pints of cod-liver oil, malt extracts, and other medicines without relief, when I was recommended to take Clements Tonic. I procured a bottle, and am thankful to say that I immediately began to improve; I could eat better, and relish and digest what I did eat. I gained flesh every day, and my strength rapidly returned, and after six week's treatment with Clement Tonic, I felt a new woman altogether. I took Clements Tonic six months ago, and have never had any sickness since, and am only too glad to add my name to your list of grateful sufferers.—Yours sincerely, Mare Kellett." And Mrs. John Taylor, 24, O'Connell-street, Newtown, N. S. W., says :—"Dear Sir,—This is to certify that I have been suffering from neuralgia and debility for the last twelve months, during which time I endured the most excruciating pain. I tried many advertised cures without avail, until I used Clements Tonic, which after the fourth dose I got relief and after taking one bottle the effect was wonderful. I shall recommend Clements Tonic to my friends as a good and safe cure, and would advise others suffering as I have done to use it." Clements Tonic is sold everywhere, but sufferers must be careful to get the genuine as many injurious and useless substitutes are frequently offered for the sake of extra profit by unscrupulous vendors.

ECHOES OF SCIENCE.

THE new researches of Mr. Nikola Tesla with alternating currents of electricity are the latest achievement of great importance in science. Mr. Tesla has devised a dynamo which generates currents changing their direction or "alternating," as it is called, more than two million times a minute. With these currents he has obtained effects which promise us a new kind of electric lamp.

When such a current is sent through an induction coil, two flames appear at the terminals very like gas jets, and yet nothing is being burned. A vacuum bulb containing a wire or a carbon filament, if held at one of the terminals glows with light, and the filament or wire becomes incandescent, although there is no "circuit" in the ordinary sense. Better still, if the terminals, of the induction coil are connected to two large metal plates the space between the plates is in such a condition that whenever a vacuum bulb containing a piece of metal is simply placed there, it glows with light, although there are no wires connected to it, and only what seems empty space surrounds it.

This, as Mr. Tesla points out, is the ideal mode of illumination. A room brought into this condition by metal plates in the walls would yield a light in any part of it, by the simple act of placing one of the exhausted bulbs there. A person could carry the bulb in his pocket or his hand without danger of fire or any other accident, and get his light wherever it was laid, as though it were a bottle filled with fireflies.

Milk, which has been deprived of its fat by separation and ærated with carbonic anhydride by Crampton's process, is now recomended by doctors for invalids whose digestive organs are unable to assimilate the raw milk. The separated milk is put into siphon bottles, and the gas is forced in at a pressure of 80lbs. on the square inch. The milk is then drawn off like soda water.

Accident and carelessness have sometimes led to valuable discoveries in science, particularly in chemistry; and we have a recent instance in the preparation of a new dye from indigo, as recorded in the *Chemiker Zeitung*. Herr V. H. Soxhlet was recently examining various extracts of indigo, such as indigo-carmine, in order to determine their market value, when by a pure oversight a quantity of liquid ammonia was poured into a glass containing some of the indigo-carmine. The glass was stoppered and left to itself; but at the end of ten days it was taken up to be cleaned, and the deep blue indigo liquid was found to have changed its colour to a yellowish green.

Herr Soxhlet followed up the matter by mixing ammonia with the carmine in different proportions, and found that the finest greens were produced with the highest percentages of ammonia. For example, equal weights of the two ingredients gave a dark-green while five parts of ammonia to one part of the carmine gave a fine yellowish green. When the green solution was mixed with dilute sulphuric acid, so as to have a slight acid reaction, the new dye was found to stain wool even better than the blue preparations of indigo, and it proved fast during washing, or in alkalies and so on. Herr Soxhlet is now engaged in arranging for the manufacture of this "indigo green" on a large scale.

The Mammoth Cave of Kentucky is well-known and a recent telegram announced the discovery of a similar grotto in Oregon, but it will be news to many that Indian apossesses a formidable rival to both of these in the "Wyandot Cave" on the Blue River. This underground labryinth was entered as far back as 1806, the year the Mammoth Cave was discovered, and it has been partly explored since; but its real extent has never been determined. Some nine miles off the passages are open to visitors, and it is supposed that about seven miles remain to be investigated. The difficulties of exploration are great owing to the fact that it is really a collection of caves, one above another in three storeys, and all connected by intricate passages, and what might be called trap-holes. Nevertheless, three venturesome boys, led by young Mr. Frank Rothrock, who has inherited the property in which the cave lies recently advanced into the unexplored part and met with several adventures.

They took with them a stock of candles and a ladder made from a cedar trunk with the branches lopped off, and by dint of squirming, riding on sharp edges, and crossing pits with their feet on one wall and their backs against the other, they succeeded in penetrating to the upper storey, and exploring several miles of the galleries, halls, and basins of the cave. Beautiful stalactites and ornate forms of alabaster were found, together with a rivulet flowing between snowy banks of alabaster, with spongoidal grows upon them. Getting at last into a part of the grotto which had a crumbling roof of clay, of a dangerous aspect, and being worn out with their exertions, and afraid their supply of candles would give out the boys turned back, although tempted to go forward by the music of a waterfall which they could hear in front of them. After so many turnings and climbings they forgot their way, and found themselves at length in a new part of the cavern, from which they could only escape by sliding down between two narrow walls into a kind of pit. They were now so much exhausted that none of them had strength to climb up again if this pit proved to have no outlet; but luckily it brought them to an orifice where they had left their ladder hours before, and they were able to get home. The lads intend to complete the survey presently with a better equipment and provisions.

On the 6th of June last a shower of stones fell at Pel-et-Der in the Department of the Aube during a violent hailstorm. These unwanted drops have been examined by a geologist, who finds them to be of chalk from Chateau-Landon, which is 150 kilometres from Pel-et-Der. It is believed that the stones were lifted into the atmosphere, and conveyed by a whirlwind.

The old notion of a great continent called Atlantis, existing at one time in what is now the Atlantic Ocean, has cropped up again in a new form. It will be remembered that Solon, the Athenian legislator, who is praised in the longlost treaties of Aristotle, found this legend of an Atlantis current among the priests of Egypt, and began a poem on the subject which he never finished. It is impossible to say how old the tradition is; and when the "telegraph plateau;" or tract of low depth, on which the Transatlantic cables lie, was discovered by soundings, there were some who fancied that it was the remains of the submerged Atlantis. But if the latest theory be true, America itself is part of the lost continent.

At a meeting lately of the Academie des Sciences, Paris, M. Blanchard read a paper on the recent existence of a land link between Europe and America. According to him, the two continents were joined by a tongue of land, of which Great Britain, the Faroe Islands, Iceland, and Greenland are the last vestiges. The separation took place, in his opinion, at an epoch so recent that many members of the present fauna and flora of Europe had already established themselves in Labrador and Canada. Among such plants are anemones, violets, saxifrages, and rhododendrons; while of animals there are beetles, butterflies, fur martins and beavers, as well as perch and other fishes. The tertiary fossils of both continents also exhibit a great similarity.

It goes without saying that a paper is not allowed to be read before the Academie des Sciences unless it is worthy of attention, and based on undoubted facts. The existence of a land connection such as M. Blanchard supposes offers a better way of accounting for the European flora on the east coast of Greenland and the American flora on the west, to which we alluded in last week's "Echoes," and which in default of this connection must be attributed to the winds and tides conveying seeds. It also opens up the interesting question whether or not some of the aboriginal races of Western Europe and North-West Africa may not be common to the eastern and western hemispheres. Mr. Ignatius Donnelly, in one of his books, has argued that some of the American Indian tribes may have come from the lost Atlantis; and although, to be sure, he is no great authority, either on literary or scientific matters, the suggestion is not in the present state of our knowledge to be scoffingly repudiated.

Goethe was an experimentalist as well as a poet, and one of the curiosities of the electrical exhibition at Frankfort-on-the-maine is his electrical machine. He, of course, lived long before the days of dynamos, and it is simply a glass frictional machine, such as are used to draw sparks from, or to charge Leydon jars in lectures. The glass was in the shape of a globe which was mounted on an axle and revolved by means of a wheel and cord. On its being rubbed the electricity was developed.

Professor F. Clowes, of University College, Notingham, has made a series of careful tests of miners' safety lamps, and finds that the Hepple-White-Gray lamp is the best in point of sensitiveness and illuminating power. It burns benzoline contained in a sponge reservoir, and the flame is surrounded by a glass cylinder.

NATURE'S REMEDY FOR CONSTIPATION.
PLEASANT TO TAKE. CERTAIN IN ACTION.
WITHOUT A RIVAL FOR CONSTIPATION.

Opinions of the Medical Press.—We have prescribed them in cases of *Chronic Constipation*, and have found them to effect their purpose most satisfactorily.—*The Lancet*, Oct. 27th, 1888.

THE NEW FRUIT ACTS on the LIVER.

Not only acts on the bowels, but the charm of its action is that from its invaluable great tonic properties, it at once gives tone and energy to the muscular coats of the stomach, gradually restoring to nature its long lost power. The New Fruit Stimulates the Liver, creating a natural action of the bowels and biliary secretions, &c.

Such diseases as Biliousness, Bad Breath, Congested Liver, Dizziness, Flatulence, Piles, Indigestion, Headache, Lowness of Spirits, Neuralgia, &c., are well known to emanate from Constipation.

On this account we wrote asking if you could supply the Mixture for dispensing purposes."—Letter from A. John & Co., Druggists, &c., Agra, India, June, 1888.

West Cowes, Isle of Wight, September, 1888.
Dear, Sirs,—Through the merits of your excellent Clarke's Blood Mixture the large red pimples which covered my face are fast disappearing. For a long time I put up with the discomfort of these pimples thinking that nothing would do any good. At last I was persuaded to try your medicine, and now I have taken one bottle they are rapidly vanishing. It cannot be too highly recommended, and I am most grateful. I will tell all my friends about it, but they really do not require telling because they can see the difference for themselves. You may publish this if needful.—I am, gratefully yours,
"ISLA GERALDINE RIPON."

THOUSANDS OF TESTIMONIALS.

Clarke's Blood Mixture is sold in Bottles 2s. 9d. each, and in cases, containing six times the quantity, 11s.—sufficient to effect a permanent cure in the great majority of long standing cases, BY ALL CHEMISTS and PATENT MEDICINE VENDORS throughout the world. Proprietors, THE LINCOLN AND MIDLAND COUNTIES DRUG COMPANY, Lincoln, England. Trade Mark—"BLOOD MIXTURE."

CAUTION.

Purchasers of Clarke's Blood Mixture should see that they get the genuine article. Worthless imitations are sometimes palmed off by unprincipled vendors. The words "Lincoln and Midland Counties Drug Company, Lincoln, England," are engraved on the Government Stamp, and Clarke's World-famed Blood Mixture," blown in the Bottles WITHOUT WHICH NONE ARE GENUINE.

PERFECT PEBBLE SPECTACLES.

DR. MENIST'S PERFECT PEBBLES are cut on approved Scientific principles at right angles to the axis of the crystal. In *Dr. Menist's Perfect Pebble Spectacles* it is not only the Pebbles which are perfect, special attention has also been given to the construction and finish of the frames to ensure the pebbles being placed exactly in the proper position for efficiently correcting the particular anomaly of refraction for which they are designed.

Dr. Menist's Perfect Pebble Spectacles stand unrivalled, and command the highest price but for those who desire it we supply a cheaper class.

We have also a large supply of ordinary glass Spectacles from Rs. 3 a pair.

When a change of power becomes necessary we supply Dr. Menist's Perfect Pebbles at half price (Rs. 8), taking back the unsuitable pair (which we return to Europe to be repolished).

Dr. Menist's Spectacles can only be obtained from MESSRS. MARCKS & Co., LIMITED.

Old Bushmills Pure Malt Whiskey

Established 1784.

Distillery: Co. ANTRIM, IRELAND.

Head Offices: 1, HILL STREET, BELFAST.

First Prize Medal, Cork, 1883.
Diploma of Honour, Paris, 1886.
Gold Medal, Liverpool, 1886.
Highest Award, Adelaide, 1887.
ONLY GOLD MEDAL for Whiskey, PARIS, 1889.

BUSHMILLS WHISKEY is absolutely pure, nothing but the best Malted Barley being used in the manufacture.

Trade Mark.

Take a little trouble to try Old Bushmills. It will be a more serious trouble afterwards to be noted for keeping the finest Whiskey round. To ensure purity it is advisable to get that bottled by the Company, the labels, capsules, and corks bearing their name. A dozen case contains two gallons.

OLD POT STILLS ONLY.

Edmund Yates,

"*His Recollections & Experiences,*"

Vol. I., page 251, says:—

I COULD not afford good wine, and would not give bad; but there was some Irish Whiskey which I procured through Mayne Reid ("BUSHMILLS" was its name), which was highly esteemed.

Writing in the *World* of Dec. 22, 1886, he says:—

600 Opinions. 600

W. Sinclair Thompson, M.D., F.R.C.S., writes from London—"I have appreciated your old Whiskey very much, and recommend it to my patients."

"Land and Water" says—"Of all spirits, Whiskey is the most wholesome, and one of the finest 'brands' of that spirit I have ever tasted is Old Bushmills."

"The County Gentleman" says—"Connoisseurs giving Old Bushmills a trial cannot fail to appreciate its mellowness and flavour."

"Licensed Victuallers' Gazette" says—"We have sampled specimens of Old Bushmills Whiskey, and are quite of our old friend Captain Mayne Reid's opinion, that it has no superior."

"The Court Circular" says—"Old Bushmills can be specially recommended for its exceptionally pleasant flavour."

PARIS EXHIBITION. OLD BUSHMILLS BEAT ALL. JUDGES AWARDED IT THE ONLY GOLD MEDAL FOR WHISKEY.

MENTION made, in certain *Reminiscences* of mine, of a pleasant and wholesome alcoholic stimulant, called **"Bushmills Whiskey,"** has led the proprietors of the famous Distillery to assure me that their alcohol is still extant in its pristine excellence, and to confirm the assurance, send me a specimen of their produce. "All taps," we are assured by Mr. Stiggins, "is wanity;" but I am glad to find that a favourite "wanity" of my youth is as mellow and as innocuous as when first introduced to my notice by my old friend, Captain Mayne Reid.

The Bushmills Company will be glad to hear from firms who keep their Whiskey, or who wish to keep it, so that their names may be added to this Advertisement if desired.
